

State of Alaska

Comprehensive Annual Financial Report

For the Fiscal Year
July 1, 2002 – June 30, 2003

Prepared by:
Department of Administration
Division of Finance

The FY 03 CAFR is expected to be available on or after January 2004 on our Internet web site at
http://fin.admin.state.ak.us/dof/financial_reports/cafr_toc.jsp.

This publication was released by the Department of Administration, Division of Finance to report on the state's financial status. Produced and printed in Juneau, Alaska at a cost of \$13.18 per copy. This publication is required by AS 37.05.210.

December 15, 2003

The Honorable Frank H. Murkowski, Governor
Members of the Legislature
Citizens of the State of Alaska

In accordance with Alaska Statute (AS) 37.05.210, it is our pleasure to present the Comprehensive Annual Financial Report (CAFR) of the State of Alaska for the fiscal year ending June 30, 2003. This report has been prepared by the Department of Administration, Division of Finance. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the state. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the state. Statistical and demographic information are included to enable the reader to gain an understanding of the state's financial activities.

The report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, exhibits of general fund financial information, an organization chart, a list of the executive branch functions by department, and a list of the state's legislators. The financial section includes: the independent auditor's report on the basic financial statements; Management's Discussion and Analysis (MD&A), which provides an introduction, overview, and analysis to the basic financial statements; the basic financial statements, which present the government-wide financial statements and fund financial statements for governmental funds, proprietary funds, fiduciary funds, and component units, together with the accompanying notes to the basic financial statements that outline pertinent accounting and reporting policies as well as explain significant financial matters that are essential to full disclosure of the state's financial operations and condition; required supplementary information other than MD&A, which presents a budgetary comparison schedule for the general fund; and the supplemental financial data section, which includes the combining and individual fund financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

THE REPORTING ENTITY AND ITS SERVICES

The State of Alaska reporting entity reflected in this CAFR, which is described more fully in Note 1 to the basic financial statements, conforms with the requirements of Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. These criteria include financial accountability, fiscal dependency, and legal standing. The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents. The financial statements should allow users to distinguish between the primary government (the state) and its component units, with the emphasis being on the primary government. Consequently, this transmittal letter, the MD&A, and the financial statements focus on the state and its activities. Although information pertaining to the discretely presented component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

The state provides a range of services including education, health and human services, transportation, law enforcement, judicial, public safety, community and economic development, public improvements, and general administrative services.

AUDITS

The Division of Legislative Audit is the principal auditor of the state's reporting entity. The audit of the CAFR was conducted in accordance with generally accepted auditing standards (GAAS), and the independent auditor's report is the first item in the financial section of the CAFR and precedes the MD&A and basic financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the state for the fiscal year ended June 30, 2003, are free of material misstatement. The audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the CAFR, assessing the accounting principles used, and evaluating the overall financial statement presentation.

In addition to the annual audit of the state's CAFR, the state is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards, the auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs will be published at a later date under separate cover by the Division of Legislative Audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Governmental Accounting Standards Board Statement No. 34 requires that management provide a narrative introduction, overview, and analysis of the state's financial activities. This transmittal letter is intended to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The state's government-wide, proprietary, and fiduciary fund financial statements are reported on the accrual basis of accounting. The state's financial statements for governmental funds have been prepared on a modified accrual basis of accounting, with revenues being recorded when measurable and available and expenditures being recorded when services or goods are received and the liabilities incurred.

The state's system of internal controls over the accounting system has been designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgements by management.

In addition to internal controls, the state maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the budget appropriated annually by the legislature. Annual operating budgets are required to be adopted through passage of appropriation bills (session laws) by the legislature with approval by the governor. These laws also identify the source of funding for the budgeted amounts. Control is maintained at the departmental level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Purchase orders that result in an overrun of available balances are not released until budget revisions are approved or additional

appropriations are made. Open encumbrances are reported as reservations of fund balance at June 30, 2003.

CASH AND INVESTMENT MANAGEMENT

As discussed more fully in Note 4 to the basic financial statements, the state's cash is controlled by the Treasury Division in the Department of Revenue or by other administrative bodies as determined by law. All cash deposited in the state treasury is managed to achieve a particular target rate of return as determined by the investment objectives set for a given fund. Cash in excess of the amount needed to meet current expenditures is invested pursuant to AS 37.10.070 and AS 37.10.071 which requires that investments shall be made with the judgment and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

Treasury has established an array of investment pools with varying investment horizons and risk profiles. Equity and fixed income investments are managed in a pooled environment unless required by statute or bond resolution to be held separately. Commingled investment pools maximize earnings potential, provide economies-of-scale savings of time and dollars, and allow smaller funds to participate in investment opportunities that would otherwise be unavailable to them. Rather than each participant (fund) buying identical individual securities, larger quantities of securities can be purchased at one time, reducing the operating costs for manager's time and number of transactions. A fund's equity ownership in a pool is based on the number of shares held by the fund.

CASH FLOW

From the time oil began flowing through the Trans-Alaska Pipeline in the late 1970's, the state has been in the enviable position of having sizeable sums of cash flowing into the state treasury. This cash funded a steadily growing state operating budget, large and small annual capital budgets, and the state's permanent fund.

In more recent years, the reality of declining oil revenues and the corresponding decrease in available cash has become more apparent. This has been reflected in more modest state operating and capital budgets. Also associated with declining revenues, though much less understood, is a cash flow situation that could lead to a cash deficiency for the state. The possibility of a cash flow deficiency grows with each passing year.

Prior to 1985, most unrestricted revenues flowed directly into the state's general fund where they were available to pay day-to-day costs of operating state government. This is no longer the case. Over time, the legislature has established more than 50 cash pools either as subfunds of the general fund or other separate cash pools. In 1990 the legislature appropriated the entire general fund balance available for appropriation at the end of FY 91 to a statutory budget reserve fund (SBRF). By a vote of the people in 1990, the Alaska Constitution was amended to establish a separate constitutional budget reserve fund (CBRF) into which oil tax settlement revenues are deposited. The effect of these actions diverted cash historically destined for the general fund to other cash pools that were not available to pay day-to-day state operating costs.

Also contributing to the potential for a cash deficiency is the fact that the inflow of unrestricted revenues does not mirror the outflow of cash expenditures. Revenues tend to flow in at a generally consistent rate. Expenditures, however, are cyclic with high and low periods. The first quarter expenditures of each fiscal year are generally much higher than revenues for the same period. Clearly, if the general fund (excluding the subfunds) does not have a large cash balance at the beginning of the fiscal year or if other sources of funds are not available, the state faces the possibility of a cash deficiency before the end of the first quarter.

In the past ten budget cycles, the legislature has addressed the possibility of a revenue shortfall. It has included language in the appropriation act permitting the executive branch to borrow cash from the statutory and constitutional budget reserve funds in the event expenditures exceeded revenues. In FY 93 and again in FY 96, funds were taken from the SBRF to balance FY 93 and FY 96 revenues and expenditures. Cash was borrowed from the CBRF in FY 94, FY 95, FY 96, FY 98, FY 99, FY 00, FY 02, and FY 03 to balance revenues and expenditures. As of June 30, 2003, \$5.1 billion has been appropriated from the CBRF.

PUBLIC EMPLOYEES' AND TEACHERS' RETIREMENT SYSTEMS PENSION FUNDS

Net assets at June 30, 2003, of the two largest pension funds, the Public Employees' (PERS) and Teachers' (TRS) Retirement Systems' funds, were \$7.4 billion and \$3.6 billion respectively. The funding status for PERS and TRS as of the June 30, 2002, actuarial valuations, indicated the actuarial accrued liabilities were 75.2 percent funded for PERS, and 68.2 percent funded for TRS. Further information on these and other pension funds, including the Supplemental Benefits System and Deferred Compensation plans, can be found in notes 7, 8, and 9 to the financial statements.

RISK MANAGEMENT

As more fully detailed in Note 12.C., the state's risk management program provides a primary layer of self-insured retention supplemented by excess insurance coverage. The state's risk management program covers all state agencies and component units, except for the Alaska Housing Finance Corporation, Alaska Railroad Corporation, and the University of Alaska who administer their own programs. Further, there is separate coverage provided by the individual component units such as the Alaska Industrial Development and Export Authority for certain individual projects.

GENERAL FUND OPERATIONS

The well-being of the State of Alaska is best reflected in the operations of the general fund. The general fund is the state's primary operating fund and accounts for all financial resources except those required to be accounted for in another fund. The state maintains many accounts and subfunds (created by law) that are accounted for and reported within the general fund. Two of the most notable are the Constitutional Budget Reserve Fund and the Permanent Fund Dividend Fund. Prior to FY 02, these two funds had previously been separately reported. However, as a result of implementing Governmental Accounting Standards Board Statement No. 34, these two are now included as a part of the general fund. Because of materiality and public interest in these two funds, individual fund data for each is provided in the combining statements for the general fund included in this report.

The state's major source of unrestricted revenue is petroleum related. In FY 03, petroleum revenue was 39.6 percent of all general fund revenues (see the following table). The largest source of nonpetroleum revenues, as shown in the following table, is federal, which makes up 41.7 percent of revenues. Not all revenues that flow into the general fund are available to pay for unrestricted government activities. The most notable are federal revenues, which are provided for specific purposes.

(Stated in millions)	FY 03	Percent	FY 02	Percent
<u>Petroleum Revenue</u>				
Property Tax	\$ 48.7	1.2	\$ 49.7	1.3
Corporate Petroleum Income Tax	168.3	4.0	232.7	6.3
Severance Tax	602.7	14.4	496.3	13.4
Mineral Bonuses and Rents	9.6	0.2	14.6	0.4
Oil and Gas Royalties	832.0	19.8	581.0	15.7
Total Petroleum Revenue	1,661.3	39.6	1,374.3	37.1
<u>Nonpetroleum Revenue</u>				
Taxes	212.4	5.1	210.9	5.7
Licenses and Permits	75.7	1.8	63.5	1.7
Charges for Services	167.2	4.0	157.1	4.2
Fines and Forfeitures	10.2	0.2	11.7	0.3
Rents and Royalties	6.7	0.2	7.8	0.2
Interest and Investment Income	202.7	4.8	205.0	5.5
Other Revenue	108.4	2.6	144.1	3.8
Total Nonpetroleum Revenue	783.3	18.7	800.1	21.4
Federal Revenue	1,749.0	41.7	1,536.0	41.5
Total Revenues	\$ 4,193.6	100.0	\$ 3,710.4	100.0

The total expenditures charged against general fund appropriations during FY 03 amounted to \$5,582.4 million, an increase of \$398.0 million from FY 02. In addition, transfers to other funds of \$4.8 million brings the total FY 03 disbursements from the general fund to \$5,587.2 million. FY 02 total disbursements were \$5,405.7 million, which included transfers to other funds of \$4.9 million, and payments to component units of \$216.5 million. In FY 03, payments to component units were categorized in the department from which the disbursements originated, most notably the University of Alaska.

Expenditures by department are compared with the prior year in the following tabulation (in thousands):

<u>Department</u>	FY 03	Percent	FY 02	Percent
Office of the Governor	\$ 30,068	0.5	\$ 26,412	0.5
Administration	213,336	3.8	198,052	3.8
Law	39,506	0.7	30,194	0.6
Revenue	966,211	17.3	1,143,589	22.2
Education & Early Development	973,966	17.4	952,275	18.4
Health & Social Services	1,449,230	26.0	1,302,826	25.2
Labor & Workforce Development	98,412	1.8	90,238	1.7
Community & Economic Development	144,904	2.6	130,498	2.5
Military & Veterans Affairs	34,915	0.6	32,937	0.6
Natural Resources	103,937	1.9	89,117	1.7
Fish & Game	66,365	1.2	67,710	1.3
Public Safety	105,083	1.9	95,065	1.8
Environmental Conservation	118,296	2.1	98,170	1.9
Corrections	164,979	3.0	160,797	3.1
Transportation & Public Facilities	750,601	13.4	663,010	12.8
Legislature	34,616	0.6	37,087	0.7
Debt Service	12,906	0.3	12,636	0.2
Alaska Court System	56,223	1.0	53,735	1.0
University	218,834	3.9		
Total Expenditures	\$ 5,582,388	100.0	\$ 5,184,348	100.0

ECONOMIC CONDITION AND OUTLOOK

As mentioned earlier, the state's major source of revenue is petroleum related. However, the price of oil has had its ups and downs over the years. The Alaska North Slope West Coast oil price averaged \$28.15 per barrel during FY 03, which is \$0.01 over the Department of Revenue spring 2003 projection of \$28.14 per barrel and \$6.36 more than the average price of \$21.78 for FY 02. The fall 2003 projection for FY 04 is \$27.70 per barrel.

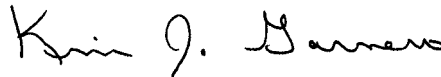

ACKNOWLEDGMENTS

We wish to express our sincere appreciation to the many individuals whose dedicated efforts have made this report possible. The preparation of this report could not have been accomplished without the professionalism and dedication demonstrated by the financial and management personnel of each state agency, each component unit, and the dedicated staff within the Division of Finance.

Sincerely,

STATE OF ALASKA ORGANIZATION CHART

- - - - - Elected by popular vote (includes Lieutenant Governor, elected on same ticket as Governor).
- ===== Justices and Judges of the Courts nominated by Judicial Council, selected by Governor and thereafter subject to voter approval.
- Department heads appointed by Governor and confirmed by the Legislature.

FUNCTIONS OF STATE DEPARTMENTS

OFFICE OF THE GOVERNOR

The Governor is the Chief Executive of the State. The Office of the Governor has the overall responsibility for coordinating the activities of state agencies to ensure that all programs are consistent with Alaska's goals and objectives.

ADMINISTRATION

Services to state agencies: Personnel, Labor Relations, Retirement and Benefits, Finance (payroll, accounts, and disbursements), General Services (purchasing, supply, mail, management of Public Building Fund facilities, space allotment); Risk Management, Information Technology Group (telecommunications and computer services). Services to the Public: Senior Services (Alaska Commission on Aging); Longevity Bonus (Pioneers' Homes); Motor Vehicles; Office of Public Advocacy; Public Defender Agency; Alaska Public Offices Commission; Oil and Gas Conservation Commission; Alaska Rural Communications System; Alaska Public Broadcasting Commission; and the Office of Tax Appeals.

COMMUNITY AND ECONOMIC DEVELOPMENT

Provides consumer protection through the regulation of banking, securities and corporations, insurance, professional occupations, and business licensing.

Promotes economic development in the state through domestic and international promotion of tourism, Alaska seafood, timber, minerals, and other products, and encouragement of business and industrial development. Administers several loan programs.

Fosters the development of independent local governments by providing technical, financial, and program assistance to communities.

Also includes: the Alaska Seafood Marketing Institute, Regulatory Commission of Alaska, Industrial Development and Export Authority, Aerospace Development Corporation, Alaska Community Services Commission, and Railroad Corporation.

CORRECTIONS

The Department of Corrections is responsible for public safety through the incarceration and supervision of offenders. The department operates twelve correctional facilities and jails which provide secure incarceration and appropriate rehabilitation programs for felons and misdemeanants; community residential centers; supervision and case management of probationers and parolees in the community; and oversight of 15 small community jails. Also included in the department is the Alaska Board of Parole, a quasi-judicial Board which makes all parole related decisions.

EDUCATION AND EARLY DEVELOPMENT

The Department of Education and Early Development is responsible for the development of lifelong learners. The State Board of Education and Early Development is the executive board of the department. The board develops educational policy, promulgates regulations governing education, appoints the Commissioner of Education and Early Development with the Governor's approval, and is the channel of communication between state government and the public for educational matters. Education policies are determined by the board and administered by the Commissioner through department divisions. Programs administered include: public school funding, early child care, teacher certification, and

student assessment. State operated schools and programs include: Alyeska Central School - the state's correspondence program, Mt. Edgecumbe High School - the state's secondary boarding school program, and the Alaska Vocational Technical Center - the state's adult vocational training center. The department also administers the state libraries, archives, records and museum services, provides grants to the arts community, and provides loans to post-secondary students through the Alaska Student Loan Corporation.

ENVIRONMENTAL CONSERVATION

The Department of Environmental Conservation is the state regulatory agency responsible for protection of public health and the environment through safe handling of oil and hazardous substances, air and water quality, safe drinking water and wastewater, and food safety and sanitation in public facilities. Through partnerships with Alaska citizens, businesses, and communities, the department works to safely manage and reduce pollution and hazards. DEC services include financial and technical assistance to communities for upgrading water, sewage and solid waste, developing outreach methods to help Alaskans understand their role in protecting health and managing environmental quality, and permitting based on risk to public health and environment. The department also offers assistance to Alaska cities to meet health-based standards for air quality, to position oil spill response equipment in communities, and to develop environmental education programs.

FISH AND GAME

The Department of Fish and Game is mandated to manage, protect, maintain, improve, and extend the fish, game, and aquatic plant resources of Alaska in the interest of the economy and general well-being of the state. The Boards of Fisheries and Game adopt regulations to conserve and develop these resources. The commissioner and the department conduct management and research functions necessary to support these goals. Includes the Commercial Fisheries Entry Commission, a quasi-judicial agency that promotes resource conservation and sustained yield management by regulating entry into Alaska's commercial fisheries.

HEALTH AND SOCIAL SERVICES

Responsible for administration of the majority of health and social service programs in the state, impacting virtually every Alaskan. Health programs include medical assistance for Alaska's poor through the Medicaid program, and public health programs such as nursing services, vital statistics, community health and emergency medical services, infectious disease control, the State Medical Examiner's office (coroner services), laboratories, and maternal, child, and family health services. Social services programs include temporary cash assistance, Adult Public Assistance, food stamps, child protection, foster care, adoptions, child residential care, juvenile justice, mental health and developmental disabilities services, and substance abuse prevention and treatment services. The department also administers the certificate of need (CON) program for hospitals and nursing homes.

LABOR AND WORKFORCE DEVELOPMENT

The Department of Labor and Workforce Development is responsible for advancing opportunities for employment and insuring that employers provide safe and legal working conditions. The department is also responsible for employment services, unemployment insurance, adult basic education, job training, workers' compensation, the Fisherman's Fund, and vocational rehabilitation for people with disabilities. In addition, the department enforces laws and regulations dealing with occupational safety and health, mechanical inspections, and wage and hour

administration; serves as the labor relations agency for public employment in the state; and collects, analyzes, and releases labor market and population statistics.

LAW

Responsible for prosecution and conviction of criminal offenders in Alaska to ensure safe communities. Assists law enforcement agencies with criminal investigations, filing misdemeanor and felony charges; serves as legal advisor to grand juries; and represents the state in all phases of criminal trial and appellate proceedings. Works in partnership with executive, legislative, and judicial agencies by providing legal advice and representing the state in all actions in which it is a party. Such actions include protecting Alaska's children and youth by handling child abuse, neglect, and delinquency cases expeditiously; resolving questions of state versus federal control of natural resources; ensuring that the state receives its correct share of oil and gas taxes and royalties; collecting money owed to the state by businesses and individuals for child support, fines, and other unpaid obligations; and defending the state against claims for personal injury and other damages.

MILITARY AND VETERANS AFFAIRS

The Department of Military and Veterans Affairs (DMVA) is responsible for the Alaska Army and Air National Guard, the Alaska Naval Militia, State Defense Force, Alaska Military Youth Academy, Office of Homeland Security and Emergency Services, and the Office of Veterans Affairs.

The Commissioner of DMVA is also the Adjutant General of the state and as such commands the Alaska National Guard. He administers federal funds for maintaining the Alaska National Guard in combat readiness in the event of a national emergency or war. The Alaska National Guard has over 4,000 personnel located in more than 74 communities. The Alaska National Guard is under the day-to-day command of the Governor and as such may be used in support of counter-narcotics operations, disaster assistance and to counter civil unrest. The Alaska Naval Militia is composed of individual U.S. Navy reservists and Marine reservists that are available to the Governor in times of emergency. Likewise, the State Defense Force, made up of individuals, some with prior military training, is available to the Governor.

The Alaska Military Youth Academy provides a five-month military style alternative high school experience for volunteer applicants who are at risk of not achieving a productive lifestyle. During the two sessions per year, the program provides a structured education and a variety of disciplines; life coping skills, educational excellence, skills training, responsible citizenship, leadership/ability to follow, health hygiene, sex education, physical fitness, and community service. The structured educational effort is targeted to meet the goals of the program, to turn the youth into confident and contributing citizens of their state and their local communities.

The mission of the Office of Homeland Security and Emergency Services is to reduce Alaska's vulnerability to terrorism and natural disasters, while implementing a statewide, integrated emergency management system to protect lives and property from all hazards. It maintains the State Emergency Coordination Center in Anchorage that is the command, control, and communications center for state and federal response to disasters and significant emergencies.

The Office of Veterans Affairs serves as a focal point for issues affecting Alaska's veteran population. The State Veterans Coordinator administers a contract with Veterans Service Organizations who provide outreach to individual veterans and assist them in maximizing their federal veteran's entitlements.

NATURAL RESOURCES

Responsible for the use, development, and conservation of the surface and subsurface natural resources belonging to the state, except for fish and game. These include approximately 91 million acres of uplands and 69 million acres of tidelands, shorelands, and submerged lands and about 40,000 miles of coastline. The strategic missions include: develop, conserve, and enhance the natural resources of the State of Alaska; raise public awareness that Alaska's natural resources are the basic asset of our economy; stimulate and encourage resource-based, value-added economic activity while conserving Alaska's wild and scenic values; implement efficiencies and economies in government; deliver essential services; and stimulate local initiative and personal responsibility.

Operationally, the department manages seven divisions located in 34 Alaska communities, the Joint Pipeline Office, the Office of Habitat Management and Permitting, the Office of Alaska Coastal Management, and the Mental Health Land Trust Office. The department is responsible for the two largest oil and gas fields in North America; a park system that contains one-third of all the state park lands in the United States; 40 percent of the nation's fresh water; fire suppression management over 134 million acres; forest resource management in two state forests totaling 2 million acres; mineral management involving 36,000 mining claims; and an agricultural program that encompasses 560 farms.

PUBLIC SAFETY

Responsible for enforcement of state laws including criminal and fish and wildlife protection laws, fire prevention, search and rescue, highway safety; compensating victims of violent crime; providing forensic crime laboratory services to law enforcement statewide; certifying police proficiency; providing basic police academy and specialized training to municipal and state law enforcement agencies; oversight of the Village Public Safety Officer Program; and assisting victims of domestic violence and sexual assault.

REVENUE

Administer and enforce tax and charitable gaming laws; collect, invest, and manage state funds and public employee pension trust funds; administer the Permanent Fund Dividend Program, the Shared Taxes Program, and the Child Support Enforcement Program; administer licensing programs mandated by statute; issue state general obligation, revenue and lease debt, and authorize certain agency debt. Other state entities under the auspices of the Department of Revenue are: the Alaska Permanent Fund Corporation, the Alaska Housing Finance Corporation, the Alaska Municipal Bond Bank Authority, the Alaska Mental Health Trust Authority, the Alaska State Pension Investment Board, and the Alaska Natural Gas Development Authority.

TRANSPORTATION AND PUBLIC FACILITIES

The department is responsible for the planning, research, design, construction, maintenance, operation, and protection of all state transportation systems and many public facilities. This includes approximately 260 state-owned airports and seaplane bases, 6,000 miles of state roads, 700 buildings ranging from maintenance shops to state office complexes, and 71 ports and harbors. In addition, the department owns and operates the Alaska Marine Highway System, serving 31 Alaskan communities with connections to Bellingham and Prince Rupert. The department also owns and operates the State Equipment Fleet, which provides full maintenance support and replacement activities of 7,700 light and heavy-duty vehicles and attachments for state departments, agencies and offices.

Independent Auditor's Report

Citizens of the State of Alaska:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of and for the year ended June 30, 2003, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Alaska's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Alaska Permanent Fund, the Fiduciary Funds – Pension and Other Employee Benefit Trust Funds and the Component Units, except for the Alaska Science and Technology Foundation and the Alaska Mental Health Trust Authority. Those financial statements reflect total assets and revenues of the government-wide financial statements and total assets and revenues or additions to the fund financial statements as follows:

<u>Government-wide Financial Statements</u>	<u>Percent of Assets</u>	<u>Percent of Revenues</u>
Primary Government – Governmental Activities	74%	24%
Component Units	95%	98%
<u>Fund Financial Statements</u>		
Governmental Funds – Alaska Permanent Fund	100%	100%
Fiduciary Funds – Pension and Other Employee Trust Funds	100%	100%
Component Units	95%	98%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those component units and funds, is based on the report of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the

overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the basic financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Alaska, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, budgetary comparison schedule, and the corresponding notes as listed in the foregoing table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and, accordingly, express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Alaska's basic financial statements. The introduction, combining fund statements, other supplementary information, and statistical sections are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining fund statements and other supplementary information have been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the report of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introduction and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Pat Davidson". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Pat Davidson, CPA
Legislative Auditor

STATE OF ALASKA

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the State of Alaska, we offer readers of the state's financial statements this narrative overview and analysis of the financial activities of the state for the fiscal year ended June 30, 2003. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found preceding this narrative on pages i-vi of this report, and the financial statements that follow.

Financial Highlights

Government-wide

- The assets of the state exceeded its liabilities at the close of FY 03 by \$32.8 billion (net assets). Of this amount, \$4.1 billion is invested in capital assets, \$24.9 billion is restricted for various purposes (of which the Alaska Permanent Fund represents \$24.1 billion), and unrestricted net assets are \$3.8 billion. Unrestricted net assets may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$646 million. This increase is primarily attributable to the investment income of the Alaska Permanent Fund.

Fund level

- As of the close of the current fiscal year, the state's governmental funds reported combined ending fund balances of \$28.6 billion, with \$1.2 billion unreserved fund balance deficit and a fund balance reserved for specific purposes of \$29.9 billion. The Alaska Permanent Fund principal is \$24.1 billion of the reserved fund balance, the Constitutional Budget Reserve Fund (CBRF, a subfund of the general fund) is \$5.1 billion, with the balance reserved for education and other purposes.
- At the end of the current fiscal year, unreserved fund balance for the general fund was a deficit of \$1.9 billion.

Long-term debt

- The state's total long-term debt increased by \$589 million (50 percent) during the current fiscal year. The key factor in this increase is the issuance of general obligation bonds.

Overview of the Financial Statements

This Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the state's basic financial statements. The state's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements (reporting on the state as a whole)

The government-wide financial statements are designed to provide readers with a broad overview of the state's finances, in a manner similar to a private-sector business. It includes all of the state's funds and component units except for fiduciary funds. However, the primary focus of the statements is clearly on the state and the presentation allows the user to address the relative relationship with the discretely presented component units.

The statement of net assets presents information on all of the state's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets should serve as a useful indicator of whether the financial position of the state is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

- **Governmental Activities** – Most of the state's basic services are reported in this category. Governmental activities are principally supported by taxes and intergovernmental revenues. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.

- **Business-type Activities** – The state charges fees to customers to help it cover all or most of the cost of certain services it provides. The state's International Airports Fund, the various loan funds, and the Unemployment Compensation fund are examples of business-type activities.
- **Discretely Presented Component Units** – Component units are legally separate organizations for which the state is financially accountable. The state has one university and nine corporations and authorities that are reported as discretely presented component units of the state.

The government-wide financial statements are statement numbers 1.01 and 1.02.

This report includes two statements (statement numbers 1.12 and 1.14) that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (accrual accounting) on the appropriate government-wide statements. The following summarizes the impact of transitioning from modified accrual to accrual accounting.

- Capital assets (land, buildings, equipment, infrastructure, and construction in progress) used in governmental activities are not reported in governmental fund statements.
- Internal service funds are reported as governmental activities in the government-wide financial statements, but are reported as proprietary funds in the fund financial statements.
- Unless due and payable in the current period, certain long-term liabilities such as capital lease obligations, compensated absences, litigation, and others only appear as liabilities in the government-wide statements.
- Capital outlay spending results in capital assets in the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bonds and note proceeds result in liabilities in the government-wide statements, but are recorded as other financing sources in the governmental fund statements.

Fund Financial Statements (reporting on the state's major funds)

The fund financial statements are statement numbers 1.11 through 1.42 and provide detailed information about the major individual funds. The state has three major funds, the general fund and the Alaska Permanent Fund, which are included in the governmental funds' statements, and the International Airports Fund, which is included in the business-type activities funds' statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State of Alaska, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the state can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. We have also included the discretely presented component units in the fund financial statements and include detailed information on the three major component units, the University of Alaska, Alaska Housing Finance Corporation, and Alaska Industrial Development and Export Authority.

Governmental funds – Most of the state's basic services are reported in the governmental funds. Governmental funds include the general fund, special revenue funds, capital project funds, debt service funds, and permanent funds. Governmental fund financial statement focus is on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating whether there are more or fewer financial resources that can be spent in the near future to finance the state's programs. These funds are reported using modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund financial statements are statement numbers 1.11 through 1.14.

As mentioned earlier, the state has only two major governmental funds, the Alaska Permanent Fund and the general fund. Together these two funds represent 95.3 percent of total government-wide cash and investments and 84.6 percent of total government-wide net assets (excluding component units). The governmental funds financial statements present detail on each of these funds, with summarized information on all other governmental funds. In addition, detail for each of the nonmajor governmental funds is available in combining statements elsewhere in this report.

The state's main operating fund is the general fund. However, the state maintains many accounts and subfunds (created by law) within the general fund. In addition, as a result of implementing GASBS 34 in FY 02, several funds previously classified as other fund types are now included as a part of the general fund. Two of the most notable funds are the Constitutional Budget Reserve Fund and the Permanent Fund Dividend Fund. Because of materiality and public interest in these two funds, individual fund data for each of these subfunds is provided in the combining statement for the general fund elsewhere in this report.

Proprietary funds - When the state charges customers for the services it provides, whether to outside customers or to other state agencies, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting, the same method used by private-sector businesses. Enterprise funds are used to report activities that provide supplies and services to the general public. The state uses enterprise funds to account for its international airports operations, its various loan funds, and the unemployment compensation fund. These activities are reported within business-type activities on the government-wide financial statements.

Internal service funds account for activities that provide supplies and services for other state programs. These include, among others, the state's equipment fleet and data processing/telecommunications. Because these services primarily benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund financial statements are statement numbers 1.21 through 1.23. The International Airports Fund is a major enterprise fund of the State of Alaska with 16.7 percent of total government-wide liabilities (excluding component units). The proprietary funds financial statements present detail on this fund with summarized information on all other proprietary funds. In addition, detail for each of the nonmajor proprietary funds is provided in the combining statements elsewhere in this report.

Fiduciary funds - The state acts as a trustee or fiduciary for its employee pension plans. In addition, it is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The state's fiduciary activities are reported in the Statement of Fiduciary Net Assets and Statement of Changes in Fiduciary Net Assets. These funds, which include pension (and other employee benefit) and agency funds, are reported using accrual accounting. Since fiduciary assets are restricted in purpose and are not available to support the state's own programs, these fiduciary assets are not presented as part of the government-wide financial statements.

The fiduciary fund financial statements are statement numbers 1.31 and 1.32.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the component unit statement of activities (statement number 1.42).

Additional Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules for the general fund reconciling the statutory and generally accepted accounting principles (GAAP) fund balances at fiscal year-end (statement number 2.01).

Other Supplementary Information

Other supplementary information includes combining financial statements for nonmajor governmental, proprietary, and fiduciary funds, as well as nonmajor discretely presented component units. These nonmajor funds are added together by fund type and presented in single columns in the basic financial statements, but are not reported individually on the fund financial statements. Only the major funds, the general fund, the Alaska Permanent Fund, and the International Airports Fund are presented individually on the fund financial statements. Schedules of revenues, expenditures and changes in fund balances – budget and actual are also presented for all governmental funds with annually adopted budgets.

Government-wide Financial Analysis

As noted earlier, net assets should serve over time as a useful indicator of a government's financial position. State assets exceeded liabilities by \$32.8 billion at the close of the most recent fiscal year (see table below). By far the largest portion of the state's net assets (74 percent) reflects its investments held in the Alaska Permanent Fund. However, the majority of these assets are not available for future spending since the principal of the fund (\$24.1 billion) may not be spent.

The remainder of the state's net assets (26 percent) represents amounts invested in capital assets net of related debt (\$4.1 billion), resources that are subject to external restrictions of how they may be used (\$0.8 billion) and unrestricted net assets for funds other than the Alaska Permanent Fund (\$3.8 billion).

Net Assets
(Stated in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2003	FY 2002	FY 2003	FY 2002	FY 2003	FY 2002
Current and other noncurrent assets	\$ 29,616	\$ 28,944	\$ 936	\$ 1,014	\$ 30,552	\$ 29,958
Capital Assets	4,116	3,727	576	473	4,692	4,200
Total assets	33,732	32,671	1,512	1,487	35,244	34,158
Long-term liabilities	1,398	843	366	366	1,764	1,209
Other liabilities	686	798	18	21	704	819
Total liabilities	2,084	1,641	384	387	2,468	2,028
Net assets:						
Invested in capital assets, net of related debt	3,724	3,353	415	371	4,139	3,724
Restricted	24,473	22,207	412	417	24,885	22,624
Unrestricted	3,451	5,470	301	312	3,752	5,782
Total net assets	\$ 31,648	\$ 31,030	\$ 1,128	\$ 1,100	\$ 32,776	\$ 32,130

The net assets of governmental activities increased \$594 million and business-type activities increased \$38 million, before prior period adjustments. The increase for governmental activities is primarily due to the increase in Alaska Permanent Fund net assets. The increase in business-type activities is primarily due to the increase in net assets of the International Airports, Alaska Clean Water, and Alaska Drinking Water funds (enterprise funds) resulting from capital contributions.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the state's net assets changed during FY 03.

Changes in Net Assets (Stated in millions)

* FY 2002 beginning net assets were restated to include any prior period adjustments, and FY 2003 beginning net assets were restated due to fund reclassification (see note 3 for further information).

Financial Analysis of the State's Funds

As noted earlier, the state uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the state's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the state's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the state's governmental funds reported combined ending fund balances of \$28.6 billion, an increase of \$682 million in comparison with the prior year. The unreserved fund balance, which is normally available for spending at the government's discretion was a deficit balance of \$1.2 billion, consisting of a deficit of \$1.9 billion in the general fund, \$100 million in the Alaska Permanent Fund (earnings reserve account), \$439 million in capital project funds, and \$93 million for other governmental funds. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed 1) for the Alaska Permanent Fund (\$24.1 billion), 2) for the Constitutional Budget Reserve Fund (\$5.1 billion), 3) to liquidate contracts and purchase orders of the prior period (\$249 million), or 4) for a variety of other restricted purposes (\$360 million).

The general fund is the chief operating fund of the state. At the end of the current fiscal year, unreserved fund balance of the general fund was a deficit of \$1.9 billion, while total fund balance reached \$3.6 billion. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance, which is a deficit, represents 33 percent of total general fund expenditures, while total fund balance represents 64 percent of that same amount.

The fund balance of the state's general fund decreased by \$567 million during the current fiscal year. The key factor in this decrease is expenditures of \$5.6 billion exceeded general fund revenues and other fund sources, resulting in appropriated borrowing of \$498 million from the Constitutional Budget Reserve Fund.

General fund revenues for FY 03 were \$4.2 billion, an increase of \$483 million compared to revenues of \$3.7 billion for FY 02. Revenues by source for FY 03 are compared to FY 02 in the following schedule (in millions):

<u>Revenue Source</u>	<u>FY 03</u>	<u>Percent</u>	<u>FY 02</u>	<u>Percent</u>
Taxes	\$ 1,032.1	24.7	\$ 989.6	26.7
Rents and Royalties	848.3	20.2	603.4	16.3
Interest & Investment Income	202.7	4.8	205.0	5.5
Federal	1,749.0	41.7	1,536.0	41.5
Miscellaneous	361.5	8.6	376.4	10.0
Total Revenue	<u>\$ 4,193.6</u>	<u>100.0</u>	<u>\$ 3,710.4</u>	<u>100.0</u>

The primary components of this revenue increase are petroleum-related taxes and royalties (\$287 million) and federal revenues (\$213 million).

Alaska Permanent Fund

The fund is an asset of the State of Alaska that is managed by the Alaska Permanent Fund Corporation, an instrumentality of the State of Alaska.

In 1976 the Alaska Constitution was amended to provide that:

At least twenty-five percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the state shall be placed in a Permanent Fund, the principal of which shall be used only for those income-producing investments specifically designated by law as eligible for Permanent Fund investments. All income from the Permanent Fund shall be deposited in the general fund unless otherwise provided by law.

The fund is made up of two parts.

- **Reserved Net Assets:** The fund reserved net assets, or principal, consists of the contributions and appropriations, which are the main body of the trust. At June 30, 2003, this amounted to \$23.0 billion. The sources of contributions and appropriations of the fund were as follows: \$7.7 billion in dedicated mineral revenues; \$7.9 billion of fund realized earnings added to principal for inflation proofing; and \$7.4 billion in additional deposits approved by special legislative appropriation.

Unrealized appreciation on invested assets, pursuant to a recent Attorney General opinion, is also part of the reserved assets of the fund. The balance of the unrealized appreciation at the end of the fiscal year amounted to \$1.1 billion.

- **Unreserved Net Assets:** The fund unreserved net assets, which are available for legislative appropriation, consist of the realized earnings of the fund. From inception through June 30, 2003, realized earnings have amounted to \$25.2 billion. Of this amount \$12.5 billion has been paid out for dividends, \$7.9 billion has been added to principal for inflation proofing, \$4.4 billion has been added to principal by special appropriation, \$.3 billion has been paid out to the general fund, and \$100 million remains in the fund in the realized earnings account.

General Fund Budgetary Highlights

The difference between the original budget and the final amended budget was a \$453 million increase in appropriations (or 5 percent) and can be briefly summarized as follows:

- \$54 million allocated to health and human services function
- \$115 million allocated to public protection function
- \$154 million allocated to transportation
- The balance of \$130 million allocated across several expenditure functions.

Of this increase in appropriated expenditures, \$258 million was to be funded out of an increase in charges for services, another \$236 million from interagency receipts, with the balance coming from other financing sources. During the year, however, revenues were less than budgetary estimates and although expenditures were less than budgetary estimates, the state still needed to draw a total of \$498 million from the CBRF in accordance with chapter 1, SSSLA 2002, section 94(b).

Capital Assets and Debt Administration

Capital assets. The state's investment (net of related debt) in capital assets for its governmental and business-type activities as of June 30, 2003, amounts to \$4.1 billion. The table below displays total capital assets, net of accumulated depreciation. Depreciation charges for FY 03 totaled \$68 million for governmental activities and \$21 million for business-type activities.

Capital Assets
(net of depreciation, in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2003	FY 2002	FY 2003	FY 2002	FY 2003	FY 2002
Land	\$ 659	\$ 649	\$ 29	28	\$ 688	\$ 677
Buildings	703	657	191	189	894	846
Equipment	280	273	14	13	294	286
Infrastructure	332	232	192	154	524	386
Construction in progress	2,142	1,916	150	89	2,292	2,005
Total capital assets	\$ 4,116	\$ 3,727	\$ 576	\$ 473	\$ 4,692	\$ 4,200

Additional information on the state's capital assets can be found in note 5 in the notes to the financial statements.

Long-term debt. At the end of the current fiscal year, the state had total bonded debt outstanding of \$1,081 million. Of this amount, \$500 million was general obligation bonds, and \$225 million comprises revenue bonds issued by the Northern Tobacco Securitization Corporation (NTSC). The general obligation bonds are secured by the full faith, credit, and resources

of the state, whereas the NTSC bonds are secured by and payable solely from Tobacco Settlement Revenues (TSRs). Neither the State of Alaska, nor the Alaska Housing Finance Corporation (of which NTSC is a subsidiary) is liable for any debt issued by NTSC. The remaining \$357 million are International Airports revenue bonds secured solely by specified revenue sources. The general obligation and NTSC bonds are reported as governmental activities debt, and the International Airports bonds are reported as business-type activities debt.

Long-term Debt
(Stated in millions)

	Governmental Activities		Business-type Activities		Total Primary Government	
	FY 2003	FY 2002	FY 2003	FY 2002	FY 2003	FY 2002
Revenue bonds payable	\$ 225	\$ 233	\$ 357	\$ 362	\$ 582	\$ 595
General obligation debt	500	-	-	-	500	-
Notes payable	5	19	-	-	5	19
Capital leases payable	272	261	-	-	272	261
Deferred revenues & advances	179	87	4	4	183	91
Certificates of participation	16	16	-	-	16	16
Compensated absences	114	108	-	-	114	108
Claims and judgements	84	82	-	-	84	82
Other noncurrent liabilities	3	3	5	-	8	3
Total	<u>\$ 1,398</u>	<u>\$ 809</u>	<u>\$ 366</u>	<u>\$ 366</u>	<u>\$ 1,764</u>	<u>\$ 1,175</u>

The state's total debt increased by \$589 million (50 percent) during the current fiscal year. The increase was primarily due to issuing general obligation bonds.

The general obligation bonds have been rated "AAA" by Fitch, "Aaa" by Moody's, and AAA by Standard & Poor's.

Additional information of the state's long-term debt can be found in note 6 in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the State of Alaska at fiscal year end was 7.4 percent, which is identical to the rate a year ago. The United States unemployment rate at fiscal year end was 6.4 percent. The state's average unemployment rate for FY 03 was 7.7 percent, which compares favorably to the average unemployment rate for FY 02 of 7.0 percent and to the five year average (1998 to 2002) of 6.5 percent. Alaska's unemployment rate for October 2003 was 6.8 percent, as compared to a rate of 7.5 percent one-year ago, and a national unemployment rate of 5.6 percent.
- The state's major source of unrestricted revenue for the general fund is petroleum related, which makes up 39.6 percent of total revenue, with federal revenue making up another 41.7 percent, and the balance coming from other sources. As a result, the state's budget is structured around these two revenue sources. However, oil production revenues have not kept pace with appropriated spending. This has resulted in appropriated borrowing from the Constitutional Budget Reserve Fund. Although federal revenues have increased, these funds are generally restricted for use in federal programs and therefore do not provide resources for balancing the state budget.
- FY 03 crude oil and natural gas liquids production for the Alaska North Slope and Cook Inlet averaged 1.020 million barrels per day, which is a 1.3 percent decrease from FY 02 production of 1.033. FY 03 production, compared to peak production of 2.049 million barrels per day in FY 88, has dropped by 50.2 percent.

The primary factors considered in preparing the state's budget for the 2004 fiscal year is the decline in oil production. With state unrestricted revenue anticipated to be less than needed for the budget, funds were appropriated from the budget reserve fund (a subfund of the general fund) to balance the FY 04 budget.

The State of Alaska FY 03 budgeted expenditures do include certain items that are unique to Alaska, such as the Alaska Permanent Fund Dividend that is paid to each qualifying Alaskan (\$1,541/resident, total \$909 million in FY 03), state-operated Pioneer Homes, and the Longevity Bonus program.

Requests for Information

This financial report is designed to provide a general overview of the state's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Alaska, Division of Finance, P.O. Box 110204, Juneau, Alaska, 99811-0204.

Governmental Funds Financial Statements

MAJOR FUNDS

General Fund

This fund is the state's operating fund. It accounts for the financial resources and transactions not accounted for in other funds. A description of the General Fund accounts and subfunds are presented in the Combining Fund Statements.

Alaska Permanent Fund

Alaska Constitution, article IX, section 15 - Administered by the Alaska Permanent Fund Corporation. The Alaska Constitution provides that at least twenty-five percent of all mineral lease rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments, and bonuses received by the state shall be placed in the Permanent Fund. Subsequent legislation increased the Permanent Fund's share to fifty percent for rents and royalties on mineral leases issued after December 1, 1979, and for bonuses on mineral leases issued after February 15, 1980.

NONMAJOR FUNDS

Nonmajor governmental funds are presented by fund type in the Combining Fund Statements.

Public School Trust Fund (34010)

Administered by the Departments of Revenue and Natural Resources. The principal consists of the July 1, 1978 balance from the public school permanent fund and one-half of one percent of the receipts derived from the management of state lands. The income from the trust is used exclusively for the support of the state public school program.

STATE OF ALASKA
Reconciliation of the Balance Sheet to the Statement of Net Assets
Governmental Funds
June 30, 2003
(Stated in Thousands)

STATEMENT 1.12

Total Fund Balances - Governmental Funds	\$ 28,646,281
---	----------------------

Amounts reported for governmental activities in the Statement of Net Assets
are different because:

Capital assets used in governmental activities are not financial
resources and therefore are not reported in the funds. (Note 5)
These assets consist of:

Land	658,744	
Buildings, net of depreciation	666,621	
Equipment, net of depreciation	193,342	
Infrastructure, net of depreciation	332,345	
Construction in progress	2,141,836	3,992,888

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. (See Statement 1.21)	148,390
---	---------

Some of the State's rents and royalties are not available soon enough to pay for the current period's expenditures and therefore are not reported in the funds.	10,912
---	--------

Certain federal revenues are under appeal with the federal government are not available within the current period and therefore are not reported in the funds.	52,249
---	--------

Long-term liabilities are not due and payable in the current period
and therefore are not reported in the funds. (Note 6)

Capital lease obligations	(271,171)	
Compensated absences	(110,611)	
Claims and judgements (net of federal reimbursement)	(81,471)	(463,253)

Long-term bonded debt is not due and payable in the current period
and therefore is not reported in the funds. (Note 6)

Notes and bonds payable (net of federal reimbursement)	(739,018)	
Unamortized costs of issuance	5,715	
Accrued interest payable	(5,960)	(739,263)

Net Assets of Governmental Activities	<u><u>\$ 31,648,204</u></u>

STATE OF ALASKA
Reconciliation of the Changes in Fund Balances to the Statement of Activities
Governmental Funds
June 30, 2003
(Stated in Thousands)

STATEMENT 1.14

Net Change in Fund Balances - Total Governmental Funds	\$	627,500
---	----	---------

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period (Note 5). See Note 3 for prior period adjustments.

Land	9,913	
Buildings, net of prior period adjustment (PPA)	51,554	
Equipment	7,069	
Infrastructure	99,679	
Construction in progress, net of PPA	225,873	
		394,088

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported in governmental activities in the Statement of Revenues, Expenses, and Changes in Fund Net Assets (Statement 1.22). See note 3 for prior period adjustments.

Net current year revenue	5,584	
Prior period adjustment	(6,686)	
		(1,102)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the fund net of PPA. 59,990

Bond proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

Bond proceeds	(501,245)	
Accrued interest	(2,159)	
Repayment of bond principal	8,495	
Payments for bond agency fees	1,184	
		(493,725)

Certain expenditures are reported in the funds. However, they either increase or decrease long-term liabilities reported on the Statement of Net Assets and have been eliminated from the Statement of Activities.

Claims and judgements net of PPA	32,572	
Compensated absences	(5,424)	
Capital lease payments	(11,981)	
Other long-term debt	11,806	
		26,973

Change in Net Assets of Governmental Activities	\$	613,724
--	-----------	----------------

Proprietary Funds Financial Statements

MAJOR FUND

International Airports Fund (21602) - AS 37.15.410-550 - Administered by the Department of Transportation and Public Facilities. This fund consists of all revenues, fees, charges, and rentals derived by the state from the ownership, lease, use, and operation of the airports.

Nonmajor proprietary funds are presented by fund type in the Combining Fund Statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Alaska have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles, which are primarily set forth in GASB's Codification of Governmental Accounting and Financial Reporting Standards.

A. THE FINANCIAL REPORTING ENTITY

The State of Alaska was admitted to the Union in 1959 and is governed by an elected governor and a sixty-member elected legislature. As required by GAAP, these financial statements present all the fund types of the state which includes all agencies, boards, commissions, authorities, courts, and colleges and universities that are legally part of the state (primary government) and its component units discussed below. Component units are legally separate entities for which the primary government is financially accountable or such that their exclusion would cause the state's financial statements to be misleading or incomplete.

The following component units are included in the accompanying financial statements. Blended component units, although legally separate entities, are, in substance, part of the state's operations and provide services entirely or almost entirely to the state. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the state. Individual component unit financial reports may also be obtained from each of these organizations.

BLENDED COMPONENT UNITS

The **Alaska Permanent Fund Corporation (APFC)** is a public corporation and government instrumentality in the Department of Revenue (AS 37.13.040). A governor-appointed six-member board manages APFC. The legislature approves APFC's budget. The purpose of APFC is to manage and invest the assets of the Alaska Permanent Fund (Fund) and other funds designated by law. The Fund is a savings device, restricted as to usage, which belongs to all the people of Alaska. It was created in 1976 when the voters approved an amendment to the state constitution. The beneficiaries of the fund are all present and future generations of Alaskans. The Fund represents 85 percent of the total cash and investments and 74 percent of total government-wide net assets excluding discretely presented component units. The Fund is reported as a permanent fund (a governmental fund type), and APFC operations are included in the Fund statements. Separately issued financial statements may be obtained from the Alaska Permanent Fund Corporation, P.O. Box 25500, Juneau, AK 99802-5500.

The **Northern Tobacco Securitization Corporation (NTSC)** is a public corporation and government instrumentality of, but having a legal existence independent of and separate from, the State of Alaska. NTSC is a subsidiary of, but separate and apart from, the Alaska Housing Finance Corporation. The commissioners of the departments of Revenue, Health and Social Services, and Community and Economic Development, and two independent public members appointed by the governor comprise the NTSC board of directors.

The purpose of NTSC is to purchase future rights, title, and interest in Tobacco Settlement Revenues (TSRs) from the state under the Master Settlement Agreement and Final Judgement (MSA). The MSA resolved cigarette smoking-related litigation between the settling states and the participating manufacturers, released the manufacturers from past and present smoking-related claims, and provides for a continuing release of future smoking-related claims, in exchange for certain payments to be made to the settling states, as well as certain tobacco advertising and marketing restrictions among other things.

NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose. When NTSC's obligations with the bonds have been fulfilled, the TSRs revert back to the state under the residual certificate. Consideration paid by NTSC through AHFC to the state for TSRs consisted of a cash amount sent to the State of Alaska custodial trust accounts and a residual certificate assigned to the state.

The bonds of NTSC are asset-backed instruments secured solely by the TSRs and NTSC's right to receive TSRs is expected to produce funding for its obligations. The TSR payments are dependent on a variety of factors, some of which are: the financial capability of the participating manufacturers to pay TSRs; future cigarette consumption that impacts the TSR payment; and future legal and legislative challenges against the tobacco manufacturers and the MSA providing for the TSRs.

Pursuant to bond indentures, these adjustments could affect the amount of funds available to pay scheduled debt service payments.

NTSC is reported in the governmental fund types as special revenue and debt service funds. The revenue bond debt is reported in the government-wide statement of net assets in the governmental fund activities column. NTSC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Public Employees' Retirement System (PERS)** was established by state statute (AS 39.35.010). The Commissioner of Administration is responsible for the administration of PERS. The governor appoints the majority of the PERS board. The board prescribes policies and regulations, hears appeals, and approves employers' rates. PERS costs, based upon actuarial valuations, are funded by the state, participating governmental employers, and participants. PERS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. The Alaska State Pension Investment Board (ASPIB) is the fiduciary of PERS.

The **Teachers' Retirement System (TRS)** was established by state statute (AS 14.25.010). The Commissioner of Administration appoints the administrator of TRS. The administrator is responsible for the administration of TRS in accordance with state statutes. The governor appoints the majority of the TRS board. The board prescribes policies and regulations, hears appeals, and approves employers' rates. TRS costs, based upon actuarial valuations, are funded by the state, participating governmental employers, and participants. TRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ASPIB is the fiduciary of TRS.

The **Judicial Retirement System (JRS)** was established by state statute (AS 22.25.048). The Commissioner of Administration is responsible for the administration of JRS. JRS costs, based upon actuarial valuations, are funded by the state and participants. JRS is reported in fiduciary fund types as a pension (and other employee benefit) trust fund. ASPIB is the fiduciary of JRS.

The **Alaska National Guard and Alaska Naval Militia Retirement System (NGNMRS)** was established by state statute (AS 26.05.222). The Commissioner of Administration is responsible for the administration of NGNMRS. NGNMRS costs, based upon actuarial valuations, are funded by the state. NGNMRS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ASPIB is the fiduciary of NGNMRS.

The **Supplemental Benefits System (SBS)** was established by state statute (AS 39.30.150). The Commissioner of Administration is responsible for the administration of SBS. SBS is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ASPIB is the fiduciary of SBS.

The **Deferred Compensation Plan (DCP)** was established by state statute (AS 39.45.010). The Commissioner of Administration is responsible for the administration of DCP. DCP is reported in the fiduciary fund types as a pension (and other employee benefit) trust fund. ASPIB is the fiduciary of the DCP.

Copies of the audited financial statements for the retirement systems, and for SBS and DCP, may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

DISCRETELY PRESENTED COMPONENT UNITS

The **Alaska Aerospace Development Corporation (AADC)** is a public corporation of the state located for administrative purposes within the Department of Community and Economic Development (AS 14.40.821). The governor appoints the voting members of the AADC board of directors and the legislature approves AADC's budget. AADC is also affiliated with the University of Alaska but with a separate and independent legal existence. The purpose of AADC is to allow the state to take a lead role in the exploration and development of space, to enhance human and economic development, and to provide a unified direction for space-related economic growth, education and research development, and tourism related activities. AADC is also to promote the continued utilization of the Poker Flat Research Range as a launch site for launch vehicles and for scientific research. Additionally, AADC is to promote and encourage the continued utilization of Poker Flat Research Range for the University of Alaska's polar research efforts. AADC financial statements may be obtained from the Alaska Aerospace Development Corporation, 4300 B. St., Suite 101, Anchorage, AK 99503.

The **Alaska Energy Authority** (AEA) is a public corporation of the state in the Department of Community and Economic Development but with a separate and independent legal existence (AS 44.83.020). The purpose of AEA was to promote, develop, and advance the general prosperity and economic welfare of the people of the state by providing a means of constructing, acquiring, financing, and operating power projects and facilities that recover and use waste energy.

However, chapters 18 and 19, session laws of Alaska (SLA) 1993, which became effective August 11, 1993, eliminated the ability of AEA to construct, own, and acquire energy projects, and the programs operated by AEA were transferred to the Department of Community and Regional Affairs. The corporate structure of AEA was retained but the board of directors of the Alaska Industrial Development and Export Authority (AIDEA) is now the board of directors of AEA and the Executive Director of AIDEA is also the Executive Director of AEA. It is the intent of the legislation that ongoing operation of the operating assets be assumed by the electric utility companies that use or purchase power from AEA with oversight responsibility retained by AEA. The governor appoints all members of the AEA board of directors and the legislature approves AEA's budget.

Pursuant to legislation effective July 1, 1999, rural energy programs previously administered by the former Department of Community and Regional Affairs were transferred to AEA for administration as part of a larger reorganization of state agencies. Rural energy programs were originally part of AEA prior to the reorganization that occurred in 1993. AEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Housing Finance Corporation** (AHFC) is a public corporation and government instrumentality within the Department of Revenue, but having a legal existence independent of and separate from the state (AS 18.56.020). The governor appoints the board of directors of AHFC. The legislature approves AHFC's budget. AHFC assists in providing decent, safe, and sanitary housing by providing mortgage loan finance. AHFC acts as the principal source of residential financing in the state and functions as a secondary mortgage market. AHFC financial statements may be obtained from the Alaska Housing Finance Corporation, P.O. Box 101020, Anchorage, AK 99510-1020.

The **Alaska Industrial Development and Export Authority** (AIDEA) is a public corporation of the state and a political subdivision within the Department of Community and Economic Development (AS 44.88.020). The governor appoints all members of the AIDEA board of directors and the legislature approves AIDEA's budget. The purpose of AIDEA is to promote, develop, and advance the general prosperity and economic welfare of the people of Alaska; to relieve problems of unemployment; to create additional employment by providing various means of financing; and to facilitate the financing of industrial, manufacturing, export, and business enterprises within the state. AIDEA financial statements may be obtained from the Alaska Industrial Development and Export Authority, 813 W. Northern Lights Blvd., Anchorage, AK 99503.

The **Alaska Mental Health Trust Authority** (AMHTA) is established as a public corporation of the state within the Department of Revenue (AS 47.30.011). The governor appoints the AMHTA board of trustees. The legislature approves AMHTA's budget. The purpose of AMHTA is to ensure an integrated comprehensive mental health program. As provided in AS 37.14.009, AMHTA is to administer the trust established under the Alaska Mental Health Enabling Act of 1956. AMHTA financial statements are included in the Combining Fund section of this CAFR with the Nonmajor Component Units since there are no separately issued financial statements for AMHTA.

The **Alaska Municipal Bond Bank Authority** (AMBBA) is a public corporation and an instrumentality of the state within the Department of Revenue, but with a legal existence independent of and separate from the state (AS 44.85.020). The governor appoints members of the AMBBA board of directors. The legislature approves AMBBA's budget. AMBBA was created for the purpose of making available to municipalities within the state moneys to finance their capital projects or for other authorized purposes by means of issuance of bonds by AMBBA and use of proceeds from such bonds to purchase from the municipalities their general obligation and revenue bonds. AMBBA commenced operations in August 1975. AMBBA financial statements may be obtained from the Alaska Municipal Bond Bank Authority, P.O. Box 110405, Juneau, AK 99811-0405.

The **Alaska Railroad Corporation** (ARRC) is a public corporation and instrumentality of the state within the Department of Community and Economic Development (AS 42.40.010). ARRC has a legal existence independent of and separate from the state. The powers of ARRC are vested in the board of directors. All members of the board of directors of ARRC are appointed by and serve at the pleasure of the governor. ARRC was created by the State of Alaska legislature to own and operate the railroad and manage its rail, industrial, port, and other properties. The ARRC commenced operations on

January 6, 1985. ARRC financial statements may be obtained from the Alaska Railroad Corporation, P.O. Box 107500, Anchorage, AK 99510-7500.

The **Alaska Science and Technology Foundation** (ASTF) is established as a public corporation in the Department of Community and Economic Development (AS 37.17.010). ASTF is governed and administered by a board of directors appointed by the governor. ASTF's budget is approved by the legislature. The purpose of ASTF is to promote and enhance through basic and applied research: economic development and technological innovation in Alaska, public health, telecommunication, and sustained growth and development of Alaskan scientific and engineering capabilities.

In order to support ASTF, the Alaska Science and Technology Endowment (ASTE) was established. ASTF also administered the International Trade and Business Endowment (ITBE) under AS 37.17.440. Income earned by the ITBE was appropriated to support programs for the development of international trade and business in the state. Both the ASTE and ITBE were held and invested by the Alaska Permanent Fund Corporation on behalf of the State of Alaska.

A BIDCO (AS 37.17.210) loan fund was created in ASTF in FY 95 to assist in the formation, capitalization, and operation of corporations that are licensed under AS 10.13. In accordance with statute, the BIDCO earned sufficient capitalization loan credits to retire a FY 97 loan, effective December 31, 2002.

During the legislative session held in 2003, the balance as of June 30, 2003 of the ASTE was appropriated to the general fund (Chapter 82, SLA 2003) and the balance of ITBE (Chapter 83, SLA 2003) was appropriated to the Alaska debt retirement fund. The legislation mandating these transfers for ASTE was effective on June 30, 2003 and ITBE was effective on July 1, 2003. Both endowments were fully liquidated and transferred to the respective funds in July 2003.

ASTF financial statements are included in the Combining Fund section of this CAFR with the Nonmajor Component Units since there are no separately issued financial statements for ASTF.

The **Alaska Student Loan Corporation** (ASLC) is a public corporation and government instrumentality within the Department of Education and Early Development but having a legal existence independent of and separate from the state (AS 14.42.100). ASLC is governed by a board of directors appointed by the governor. The legislature approves ASLC's budget. The purpose of ASLC is to improve higher educational opportunities for residents of the state. ASLC financial statements may be obtained from the Postsecondary Education Commission, 3030 Vintage Blvd., Juneau, AK 99801-7100.

The **University of Alaska** is established as a corporation and is an instrumentality of the state (AS 14.40.040). A board of regents appointed by the governor and confirmed by the legislature governs the university. The legislature approves the university's budget. The university is created and acts for the benefit of the state and the public in providing education in accordance with an express mandate of the constitution. The university's financial statements may be obtained from the University of Alaska, Statewide Fund Accounting, 209 Butrovich Building, P.O. Box 756540, Fairbanks, AK 99775-6540.

The **Alaska Seafood Marketing Institute** (ASMI) is a public corporation of the state (AS 16.51.010). It is an instrumentality of the state with a legal existence independent of and separate from the state. ASMI is governed by a board of directors appointed by the governor, and its budget is approved by the legislature. The purpose of ASMI is to promote all species of seafood and their by-products harvested in Alaska for sale, and to develop market-oriented quality specifications. Exercise of the powers conferred by statute to ASMI is an essential governmental function. Although ASMI has been determined to be a component unit required to be discretely presented, it is reported in the general fund within the Department of Community and Economic Development because its financial activities, which are immaterial, are currently accounted for in the state's general fund. The ASMI fiscal year 2003 budget was approximately \$11.2 million.

B. BASIC FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements (as well as these notes to the financial statements). The previous financial reporting model emphasized fund types (the total of all funds of a particular type), while the new financial reporting model focus is on either the state as a whole (government-wide statements), or on major individual funds (fund financial statements). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

The government-wide financial statements (statement of net assets and statement of activities) report information of all nonfiduciary activities of the state and its component units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from the component units for which the primary government is financially accountable.

The statement of net assets presents the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- ◆ **Invested in capital assets, net of related debt** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- ◆ **Restricted net assets** result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- ◆ **Unrestricted net assets** consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often are designated to indicate that management does not consider them available for general operations (see note 1.F.). Unrestricted net assets often have constraints on resources that are imposed by management, but can be modified or removed.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide statements. The fund financial statements are, in substance, very similar to the previous financial reporting model's financial statements. However, the new model emphasis is on major funds (of which the state has three, the general fund and the Alaska Permanent Fund, both of which are governmental funds, and the International Airports Fund, which is an enterprise fund). All nonmajor funds are summarized into a single column on the respective funds statements: governmental; proprietary, which includes enterprise and internal service fund types; and fiduciary, which includes pension (and other employee benefit) trust funds, and agency funds. The State of Alaska does not have any fiduciary private-purpose trust funds.

C. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resource management focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available to finance operations during the current year or to liquidate liabilities existing at the end of the year (collected within 60 days of fiscal year end). Major revenues that are determined to be susceptible to accrual include federal, charges for services, investment income, and petroleum related taxes and royalties.

Expenditures are recognized when a liability is incurred. However, expenditures related to debt service, compensated absences, and claims and judgements are recorded only when payment is due and payable.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The state has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are reported as nonoperating.

When both restricted and unrestricted resources are available for use, it is the state's policy to use restricted resources first, then unrestricted resources as they are needed.

D. FINANCIAL STATEMENT PRESENTATION

The State of Alaska reports three major funds, the general fund and the Alaska Permanent Fund, both of which are governmental funds, and the International Airports Fund, which is a proprietary enterprise fund. The general fund is the state's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The Alaska Permanent Fund was created in 1976 to save a portion of the state's one-time oil wealth to produce income to benefit current and future generations. The International Airports Fund was created in 1961 to equip, finance, maintain and operate two international airports located in Anchorage and Fairbanks. In addition, the state reports the following fund types:

GOVERNMENTAL FUND TYPES

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital project funds account for the acquisition or construction of major capital facilities financed by bond proceeds.

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry. In addition to the Alaska Permanent Fund (major fund), the state has one other permanent fund, the Public School Trust Fund.

PROPRIETARY FUND TYPES

Enterprise funds are used to report any activity for which a fee is charged to external users for goods and services.

Internal service funds are used to report any activity that provides goods or services primarily to other funds or agencies of the state, rather than to the general public.

FIDUCIARY FUND TYPES

Pension (and other employee benefits) trust funds are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, and other postemployment benefit plans.

Agency funds are used to report resources held by the state purely in a custodial capacity (assets equal liabilities).

E. FISCAL YEAR-ENDS

All funds and discretely presented component units of the State of Alaska are reported using fiscal years which end on June 30 except the Alaska Railroad Corporation and Deferred Compensation Fund fiscal years end on December 31, and the Alaska Supplemental Benefits System fiscal year ends on January 31.

F. ASSETS, LIABILITIES, AND NET ASSETS/FUND BALANCE

CASH AND INVESTMENTS, CASH AND CASH EQUIVALENTS

The amounts shown on the statements of net assets and the balance sheets as Cash and Investments represent cash on deposit in banks, petty cash, cash invested in various short-term instruments, and other investments of the state and its component units. In accordance with GASB Statement No. 31, investments are stated at fair value, which approximates market value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fixed income securities are valued each business day using prices obtained from a pricing service when such prices are available; otherwise, such securities are valued at the mid-point between the bid and asked price or at prices for securities of comparable maturity, quality, and type. The noninterest bearing investments and the Tobacco Revenue Fixed Income Investments are reported at cost, which approximates fair value.

The assets of the Non-retirement Domestic Equity Pool are comprised of shares in the Russell 3000 Index Common Trust Fund (Trust), a passively managed commingled index fund. The underlying securities in this Trust are valued each business day in good faith and pursuant to procedures established by the Trustee.

Domestic and international equity securities are valued each business day using prices obtained from a pricing service or prices quoted by one or more independent brokers. Equity securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates or, in the absence of a sale, at the last reported bid price.

Emerging markets securities are valued on the last business day of each month. Equity securities are valued using the last reported sale price on the exchange on which the securities are traded or, in the absence of a sale, at the last reported bid price. Fixed income securities are valued using prices obtained from a pricing service when such prices are available; otherwise, such securities are valued at the mid-point between the bid and asked price or at prices for securities of comparable maturity, quality and type. Securities for which representative market quotations are not readily available are valued in good faith under policies approved by the commingled equity fund's board of directors.

Private equity securities are valued quarterly by the general partners and investment sponsors. The private equity oversight manager is held to a standard of reasonable care in verifying that the valuations reasonably reflect the underlying fair value of the investments.

Securities expressed in terms of foreign currencies are translated into U.S. dollars at the prevailing market rates. Forward currency contracts are valued at the mid-point of representative quoted bid and asked prices.

Real estate investments are valued quarterly using public market quotations, where a quoted market exists, or by independent appraisers, and are periodically adjusted by trustees of the investments when market conditions change. Mortgage loans are valued at their principal balance (cost) less an allowance for loan loss, the net result of which approximates fair value.

The statement of cash flows for the enterprise funds shows changes in cash and cash equivalents. For the purpose of the statement of cash flows, all highly liquid debt instruments with original maturities of three months or less are considered cash and cash equivalents. In addition, because the state's Short-term Fixed Income Pool operates as a demand deposit account, amounts invested in the pool are classified as cash and cash equivalents. At June 30, 2003, the assets of the pool were comprised of money market instruments, U.S. treasuries, U.S. government agency debt, mortgage and asset-backed securities, and corporate debt.

RECEIVABLES

Receivables have been established and offset with proper provisions for estimated uncollectible accounts where applicable. The amount of noncurrent receivables is included in the fund balance reserve, which indicates they do not constitute expendable available financial resources and therefore are not available for appropriation.

Practically all accounts receivable of governmental funds are due from oil companies and governmental entities, primarily the federal government, and are considered collectible. Accounts receivable in other funds have arisen in the ordinary course of business.

INTER/INTRAFUND TRANSACTIONS

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

INVENTORIES

Inventories reported for the internal service funds and the general fund consist mainly of consumable materials and supplies. Inventories are carried at cost (average cost for Highway Equipment Working Capital; first in first out (FIFO) for other internal service funds and the general fund), and are accounted for on the consumption method. However, the majority of materials and supplies for state agencies are accounted for as expenditures at the time of purchase. Inventory of the University of Alaska is carried at the lower of cost or market.

CAPITAL ASSETS

Capital assets are reported in the Statement of Net Assets at cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the time of donation including Statehood entitlement land that is carried at an estimated value of \$1 per acre.

Capital assets are depreciated on the straight-line method over the estimated useful lives of the related assets.

Public domain infrastructure acquired beginning in FY 02, such as highways and bridges, is capitalized. By fiscal year 2006, infrastructure acquired prior to FY 02 will be inventoried and included in total infrastructure assets.

The state possesses certain capital assets that have not been capitalized and depreciated because the assets cannot be reasonably valued and/or the assets have inexhaustible useful lives. These assets include the state's art collections, library reserve collections, and museum and historical collections. These assets are: held for public exhibition, education, or research rather than financial gain; protected, kept unencumbered, cared for, and preserved; and proceeds from the sale of collection items are used to acquire other items for collections.

Additional disclosures related to capital assets are provided in Note 5.

COMPENSATED ABSENCES

Regulations governing annual/personal leave (vacation pay) provide that state employees will receive time off, or pay, for hours accumulated. Consequently, a liability exists with respect to accumulated annual/personal leave at any given time. As of June 30, 2003, this liability is recognized and reported in the government-wide and proprietary fund financial statements. The state's estimated liability for compensated absences, as reported in the statement of net assets, is \$114.0 million. A liability for compensated absences is reported in the governmental funds' statements only for the current portion of accumulated unpaid annual or personal leave, which as of June 30, 2003, is \$4.8 million. There is no liability in the accompanying financial statements for unpaid accumulated sick leave. See Note 12 for disclosure of the amount of the sick leave contingency.

The cost of compensated absences (annual/personal leave and sick leave) for state employees is charged against agency appropriations when leave is used rather than when leave is earned, except for the payment of the accumulated annual/personal leave balance for an employee terminating from state service. That amount is charged to a terminal leave liability account rather than the individual agency appropriation. This liability account is funded by a charge to each agency's operating budget.

NET ASSETS/FUND BALANCE

The difference between fund assets and liabilities is “net assets” on the government-wide, proprietary, and fiduciary fund statements, and is “fund balance” on the governmental fund statements.

FUND BALANCE RESERVES/DESIGNATIONS

The governmental fund financial statements present reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative plans for future use of financial resources.

The following shows the composition of the fund balance of the governmental funds for the fiscal year ending June 30, 2003 (in thousands).

Reserved	General	Permanent	Special Revenue	Debt Service	Capital Projects
Encumbrances	\$ 212,546	\$ 43	\$18,479	\$ -	\$ 18,215
Nonliquid Assets	5,161,740	-	-	-	-
Bonds	-	-	-	67,078	-
Other	26,672	24,360,657	-	-	-
Total Reserved	<u>5,400,958</u>	<u>24,360,700</u>	<u>18,479</u>	<u>67,078</u>	<u>18,215</u>
Unreserved					
Designated					
Continuing Appropriations	257,772	556	15,993	-	438,694
Other	962,976	100,000	401	-	-
Undesignated	(3,071,629)	13,583	62,593	-	(88)
Total Unreserved	<u>(1,850,881)</u>	<u>114,139</u>	<u>78,987</u>	<u>-</u>	<u>438,606</u>
Total Fund Balance	<u>\$3,550,077</u>	<u>\$24,474,839</u>	<u>\$97,466</u>	<u>\$67,078</u>	<u>\$456,821</u>

RESTRICTED NET ASSETS

Restricted net assets for permanent funds are required to be identified as expendable or nonexpendable. All of the Alaska Permanent Fund restricted net assets (\$24,094 million) and \$266 million of the Public School Trust Fund net assets are nonexpendable. The remaining \$14 million (five percent) of the Public School Trust Fund restricted net assets are expendable.

NOTE 2 – BUDGETING, BUDGETARY CONTROL, AND LEGAL COMPLIANCE

Once money received is deposited in the state treasury, it may not be withdrawn from the treasury except in accordance with an appropriation made by law. Those amounts received by component units are disbursed in accordance with their particular statutory authority.

The budgetary process is used to establish a balancing of estimated revenues coming into a fund with requested appropriations for that fund. Except for capital project funds, which prepare only project-length budgets, annual operating (and project-length) budgets are prepared for practically every fund and are submitted to the legislature for the enactment of appropriations. An appropriation is an authorization to spend money and to incur obligations. Each appropriation is limited as to purpose, time, and amount, and each of these limitations is legally binding. The legal level of budgetary control is maintained at the appropriation level as specified in the enabling legislation, which is generally at the program level within a department.

Appropriations as enacted by the legislature and signed by the governor are entered into the accounting records. The balance of an appropriation is reduced when funds are expended or encumbered. Appropriations are encumbered for anticipated expenditures in the form of purchase orders, contracts, and other obligations. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities. Unencumbered balances of annual appropriations lapse at the end of the fiscal year.

Expenditures of funds are made only upon properly approved requests for payment. The total of expenditures and encumbrances (obligations) may not exceed the appropriations to which they pertain. Transfers between appropriations are not authorized. Agencies faced with potential overexpenditure of appropriations must (1) reduce the rate of expenditures, (2) seek relief through supplemental appropriations, or (3) request necessary approvals to receive and expend additional funds. In order to provide sufficient funding for several programs during FY 03, supplemental appropriations of \$187.0 million were required, of which \$94.4 million were appropriations from the general fund.

The state issues a separate legal basis budgetary report, which demonstrates legal compliance with the budget. A copy of this report may be obtained by contacting the State of Alaska, Department of Administration, Division of Finance, P.O. Box 110204, Juneau, AK 99801-0204, or may be viewed online at http://fin.admin.state.ak.us/dof/financial_reports/index.jsp, the Division of Finance web page under Financial Reports.

SPENDING LIMITS

In 1982, the voters of Alaska approved an amendment to the Alaska Constitution to control state spending. Article IX, section 16, establishes an annual appropriation limit of \$2.5 billion plus adjustments for changes in population and inflation since July 1, 1981. Within this limit, one-third is reserved for capital projects and loan appropriations. For FY 03, the Office of Management and Budget estimated the limit to be approximately \$6.6 billion. The FY 03 budget passed by the legislature was \$2.5 billion (unrestricted general fund revenues only), or \$4.1 billion less than the constitutional spending limit.

CONSTITUTIONAL BUDGET RESERVE FUND

In 1990, the voters of Alaska approved an amendment to the Alaska Constitution to establish a budget reserve fund (CBRF). Article IX, section 17, states, in part, "...Except for money deposited into the permanent fund under Section 15 of this article, all money received by the State after July 1, 1990, as a result of the termination, through settlement or otherwise, of an administrative proceeding or of litigation in a State or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property, shall be deposited in the budget reserve fund. ..."

The fund was established to enhance budget stability by depositing certain monies into the budget reserve fund (where they could not be easily spent) rather than into the general fund (where they would be readily available for appropriation for expenditure). Money may be appropriated from the fund in accordance with the provisions of section 17(b) and (c). To date, the only appropriations from the fund have been made under the provisions of section 17(c), which states "An appropriation from the budget reserve fund may be made for any public purpose upon affirmative vote of three-fourths of the members of each house of the legislature."

The constitution further provides that all money appropriated from the fund must be repaid to the fund. Section 17(d) states "If an appropriation is made from the budget reserve fund, until the amount appropriated is repaid, the amount of money in the general fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund. The legislature shall implement this subsection by law."

The following is a schedule of amounts appropriated from the CBRF, and the amounts transferred back to the CBRF from the general fund as provided in section 17(d). As can be seen from this schedule, the amount appropriated and not yet repaid has grown to over \$5 billion. The paragraphs following the schedule provide an explanation of the entries.

Chapter 14, SLA 1994, section 7	\$ 1,006,038,474

Chapter 1, SSSLA 2002, section 94(a)	130,695,249
Chapter 1, SSSLA 2002, section 94(b)	498,120,073
Chapter 1, SSSLA 2002, section 94(c)	121,425

Article IX, section 17(d) Alaska Constitution (FY 03)	(88,755,533)
Subtotal FY 03	<u>540,181,214</u>
Total appropriated from the CBRF	<u>\$ 5,112,937,352</u>

The amounts appropriated in chapter 14, SLA 1994, sections 7 and 8 are equal to the amounts appropriated from the general fund to the CBRF to comply with court orders. In FY 91 through FY 94, the state deposited revenue into the general fund that several parties contended should have been deposited into the CBRF. The Alaska Superior Court and Supreme Court agreed that these monies should have been deposited in the CBRF and the state was ordered to restore the CBRF, including interest earnings, retroactive to July 1, 1990. Chapter 14, SLA 1994, was enacted into law to comply with the courts' orders and sections 2, 3, and 4 of the law appropriated \$1,006,038,474, plus \$49,608,135 in interest which would have been earned on the money after June 30, 1990, from the general fund to the CBRF effective April 15, 1994.

Chapter 14, SLA 1994, section 9, chapter 3 FSSLA 1994, section 39(c), chapter 94 SLA 1995, section 43(b), chapter 98 SLA 1997, section 35(b), chapter 2 FSSLA 1999, section 21(a) and (b), chapter 61 SLA 2001, section 93(b), and chapter 1, SSSLA 2002, section 94(b) appropriated additional amounts from the CBRF to the general fund to fund any shortfalls between state revenue and general fund appropriations for fiscal years 1994, 1995, 1996, 1998, 1999, 2000, 2002, and 2003 respectively.

Chapter 3, FSSLA 1994, section 40, appropriated an amount to cover the share of the state's actual expenditures for oil and gas litigation from July 1, 1990, through February 15, 1994, that is attributable to the CBRF. The appropriation in section 22(a) of chapter 3 was to cover costs related to legal proceedings and audit activity involving oil and gas revenue due or paid to the state or state title to oil and gas land, for the fiscal year ending June 30, 1995.

Chapter 6, FSSLA 1994, section 1, was passed by the Alaska legislature to resolve the long-standing issue of reconstitution of the Alaska Mental Health Trust (AMHT). CBRF funds were appropriated to capitalize the AMHT.

This schedule shows the effect of article IX, section 17(d), of the Alaska Constitution, which provides that the amount of money in the general fund available for appropriation at the end of each succeeding fiscal year shall be deposited in the budget reserve fund until the amount appropriated is repaid. As of June 30, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, and 2003, amounts in various subfunds and accounts of the general fund that were identified as available for appropriation were used to repay a part of the liability to the CBRF. The amounts for FY 95, FY 96, FY 97, FY 98, FY 99, FY 00, FY 01, and FY 02 were transferred to the CBRF during FY 96, FY 97, FY 98, FY 99, FY 00, FY 01, FY 02, and FY 03 respectively. The amount for FY 03 will be transferred to the CBRF during FY 04.

The amounts transferred under article IX, section 17(d), were appropriated back to the funds from which transferred under chapter 94, SLA 1995, section 43(a) for FY 95, chapter 5, FSSLA 1996, section 1(a) for FY 96, chapter 98, SLA 1997, section 35(a) for FY 97, chapter 139, SLA 1998, section 42(a) for FY 98, chapter 84, SLA 1999, section 35(a) for FY 99, chapter 133, SLA 2000, section 11(a) for FY 00, chapter 61, SLA 2001, section 93(a) for FY 01, and chapter 1, SSSLA 2002, section 94(a) for FY 02.

Chapter 94, SLA 1995, appropriated amounts from the CBRF to fund miscellaneous operating appropriations.

Chapter 98, SLA 1997, Page 47, line 3, chapter 2, SLA 1999, section 16(c), chapter 135, SLA 2000, section 18(c), chapter 61, SLA 2001, section 93(c) and chapter 1, SSSLA 2002, section 94(c) appropriated amounts from the CBRF for treasury management of CBRF investments in FY 98, FY 99, FY 01, FY 02, and FY 03 respectively.

Chapter 27, SLA 1999, section 2(a) appropriated funds from the CBRF for year 2000 (Y2K) assessment, compliance, and remediation projects.

Chapter 8, SLA 2000, section 8(a), repealed and reappropriated the unexpended and unobligated balances of the CBRF appropriations made in section 2(a), chapter 27, SLA 1999, page 2, line 3, page 3, line 31, page 4, line 17, and page 4, line 20, to the longevity bonus grant program.

Chapter 75, SLA 2000, section 1(b), appropriated funds from the CBRF to the power cost equalization endowment fund, which is within the Alaska Energy Authority. Chapter 75, SLA 2000, section 1(c), also appropriated funds from the CBRF to the Alaska Energy Authority to cover the costs of completing the sale of the four dam pool hydroelectric project and of establishing and managing the power cost equalization endowment fund for FY 01.

NOTE 3 – ACCOUNTING CHANGES AND BEGINNING FUND BALANCE/NET ASSETS ADJUSTMENTS

Effective for the year ended June 30, 2003, the Alaska Student Loan Corporation, a component unit of the state, changed its method of amortizing bond issuance costs from the effective interest method to the straight-line method. The cumulative effect of the change in accounting method is \$1,620,730.

The following table summarizes changes to fund balance/net assets as previously reported to beginning fund balance/net assets, as restated, as a result of reclassification of funds for the Fiscal Year Ended June 30, 2003

	June 30, 2002 As Previously Reported	Fund Reclassification	June 30, 2002 As Restated
GOVERNMENTAL FUNDS & ACTIVITIES			
General Fund	\$ 4,117,395	\$ -	\$ 4,117,395
Previously reported as Private-purpose Trust Fund:			
Memorial Education Revolving Loan	-	4,325	4,325
Alaska Veterans' Memorial Endowment	-	125	125
Total General Fund	<u>4,117,395</u>	<u>4,450</u>	<u>4,121,845</u>
FIDUCIARY FUNDS			
Private-purpose Trust Fund			
Memorial Education Revolving Loan	4,325	(4,325)	-
Alaska Veterans' Memorial Endowment	125	(125)	-
Total Private-purpose Trust Funds	<u>4,450</u>	<u>(4,450)</u>	<u>-</u>
Totals for fund reclassifications during FY 2003	<u>\$ 4,121,845</u>	<u>\$ -</u>	<u>\$ 4,121,845</u>

Other material changes displayed as prior period adjustments in the fund financial statements are listed below.

- \$1,473 increase to the general fund reflects cash proceeds of Certificates of Participation that were not reported in the financial statements for previous years.
- \$11,139 decrease to the general fund removes federal revenues that were previously reported, but are not available to meet current obligations. This adjustment is not made to the government-wide financial statements, which are reported on an accrual basis.
- \$10,647 decrease to nonmajor enterprise funds is to correct treatment of deferred interest in the Fisheries Enhancement Revolving Loan Fund.
- \$6,686 decrease to internal service funds is to correct the building valuations in the Alaska Public Building Fund and correct other miscellaneous errors in that fund, the Information Services Fund, and the Highway Equipment Working Capital Fund.

Additional prior period adjustments affecting the government-wide financial statements are listed below:

- \$8,917 decrease to capital assets to correct the amount reported for buildings, software development, and other construction in progress.

- \$33,620 decrease to claims and judgements to comply with GASB Statement Number 10, which requires public entities to use "expected" amounts to value liabilities for the financial statements.

A prior period adjustment affected the beginning cash balance on the Combining Statement of Cash Flows for enterprise funds. Prior to fiscal year 2003, the Alaska Clean Water and Alaska Drinking Water netted Warrants Outstanding against Cash and Investments for their Statement of Net Assets. In fiscal year 2003, these accounts are reported separately as a liability and an asset. As a result, the Cash and Equivalents at the beginning of the year on the Statements of Cash Flows, Alaska Drinking Water's Cash and Equivalents-Beginning of Year is \$302 thousand higher than that stated at the end of last year, and Alaska Drinking Water's is \$90 thousand higher.

NOTE 4 – DEPOSITS AND INVESTMENTS

GASB Statement No. 3 requires disclosure regarding custodial credit risk to indicate the chance of loss in the event a financial institution or third party holding the deposits or securities fails. Deposits are classified into three categories of credit risk: Category 1 – Insured or collateralized with securities held by the State or its custodian in the State's name; Category 2 – Collateralized with securities held by the counterparty's trust department (if a bank) or agent in the State's name; and Category 3 – Uncollateralized. Investments represented by specific, identifiable securities are classified into three categories of credit risk: Category 1 - Insured or registered, or securities held by the State or its custodian in the State's name; Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department (if a bank) or agent in the State's name; and Category 3 - Uninsured and unregistered, with securities held by the counterparty, or by its trust department (if a bank) or agent, but not in the State's name. Category 1 is the highest level of safekeeping as defined by GASB for both deposits and investments.

A. DEPOSITS AND INVESTMENTS UNDER THE CONTROL OF THE COMMISSIONER OF REVENUE

By law, all deposits and investments are under the control of the Commissioner of the Department of Revenue (Commissioner) except where the legislature has delegated that responsibility to other entities or boards responsible for separate subdivisions or component units of the State. Those agencies and component units that manage their own cash and investments are: Alaska Permanent Fund Corporation, Alaska Energy Authority, Alaska Housing Finance Corporation, Alaska Industrial Development and Export Authority, Alaska Municipal Bond Bank Authority, Alaska Railroad Corporation, Alaska Mental Health Trust Authority, Alaska Science and Technology Foundation, Alaska Student Loan Corporation, Alaska State Pension Investment Board, Exxon Valdez Oil Spill Trustee Council, and the University of Alaska.

Invested assets under the fiduciary responsibility of the Commissioner are comprised of the General Fund and Other Nonsegregated Investments, Constitutional Budget Reserve Fund, International Airports Fund, Retiree Health Fund, Power Cost Equalization Endowment Fund, General Obligation Bond Fund as well as the Public School, Alaska Children's, Investment Loss, and Supplemental Benefits System (SBS) trust funds (all collectively, Funds).

As the fiduciary, the Commissioner has the statutory authority (AS 37.10.070 - 37.10.071) to invest the assets under the Prudent Investor Rule which requires that investments shall be made with the judgement and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

With the exception of tobacco revenue investments, investments are managed in a pooled environment. Actual investing is performed by investment officers in the Department of Revenue, Treasury Division or by contracted external investment managers. External management companies manage international equities, domestic equities and some domestic fixed income. Treasury Division staff act as oversight manager for all externally managed investments. The Short-term Fixed Income Pool, Intermediate-term Fixed Income Pool and the Broad Market Fixed Income Pool are internally managed. Information related to the various pools and investments is disclosed in the financial schedules issued by the Department of Revenue, Treasury Division.

Investments are recorded at fair value as defined by GASB Statement No. 31, except for tobacco revenue fixed income investments, which are valued at their principal balance (cost) which approximates fair value.

Certain types of investments are not subject to the custodial credit risk disclosure requirements in GASB Statement No. 3. The Non-retirement Domestic Fixed Income Pool and the Non-retirement Domestic Equity Pool cannot be categorized

because the amounts reported represent interests in open-ended mutual fund-like pools rather than ownership of specific, identifiable securities. The Government Short-term Investment Fund is an institutional investment fund and, as such, cannot be categorized because the amounts reported represent interests in the fund rather than ownership of specific, identifiable securities. The tobacco revenue fixed income investments are not transferable financial instruments (securities) and therefore cannot be categorized with regard to credit risk.

Trade date accounting is used for investment activity. Unsettled purchase transactions do not present credit risk as the State and its custodian do not hold a deposit or margin account against unsettled purchases. Unsettled purchases and unsettled sale transactions related to mortgage-backed security pools yet to be announced do not present custodial risk because the State has not taken possession of specific securities. These unsettled investment transactions cannot be categorized.

Deposits and investments at June 30, 2003, are summarized as follows (in thousands):

<u>Deposits</u>	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Fair Value</u>

Additional investment information may be obtained from the Department of Revenue, Treasury Division, P.O. Box 110405, Juneau, Alaska 99811-0405.

Securities Lending

Alaska Statute 37.10.071 authorizes the Commissioner to lend assets, under an agreement and for a fee, against deposited collateral of equivalent market value. In January 2001, the Commissioner entered into an agreement with State Street Corporation (the Bank) to lend fixed income and equity securities. The Bank, acting as the Commissioner's agent under the agreement, transfers securities to broker agents or other entities for collateral in the form of cash or securities and simultaneously agrees to return the collateral for the same securities in the future.

At June 30, 2003, the fair value of securities on loan totaled \$665,654,865 which is attributable on a pro rata basis to the funds whose assets are under the fiduciary responsibility of the Commissioner. There is no limit to the amount that can be loaned and the Commissioner is able to sell securities on loan. International equity security loans are fully collateralized at not less than 105 percent of their fair value. All other security loans are fully collateralized at not less than 102 percent of their fair value. The Bank invests the collateral in a commingled investment pool; maturities of these investments generally did not match the maturities of the loaned securities because the lending agreements are terminable at will. The Bank may pledge or sell collateral upon borrower default. Since the Commissioner does not have the ability to pledge or sell the collateral unless the borrower defaults, no assets or liabilities are recorded on the financial statements. There is limited credit risk associated with the lending transactions since the Commissioner is indemnified by the Bank against any loss resulting from counterparty failure or default on a loaned security subject to limitation relating to war, civil unrest or revolution, or beyond the reasonable control of the Bank. The Bank and the borrower receive a fee from earnings on invested collateral.

For the year ended June 30, 2003, there were no losses incurred as a result of securities lending transactions and there were no significant violations of legal or contractual provisions nor failures by any borrowers to return loaned securities.

Foreign Exchange Contracts and Off-Balance Sheet Risk

The SOA International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future dates for the purpose of hedging existing security positions in these currencies. The maturity period for the contract outstanding at June 30, 2003, was five days.

At June 30, 2003, the Fund had a sale contract outstanding totaling \$10,183. The fair value of this contract, using the forward rate at June 30, 2003, was \$10,265. This resulted in a net unrealized gain of \$82 at June 30, 2003.

The counterparty to the foreign currency forward contract consisted of a single brokerage firm. Credit risk exposure exists to the extent of non-performance by this counterparty; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date.

B. DEPOSITS AND INVESTMENTS UNDER CONTROL OF THE ALASKA STATE PENSION INVESTMENT BOARD

Invested assets of the pension (and other employee benefit) trust funds (Public Employees', Teachers', Judicial, and the Alaska National Guard and Naval Militia Retirement Systems) as well as the Supplemental Benefits System and Deferred Compensation Plans are under the fiduciary responsibility of the Alaska State Pension Investment Board (ASPIB).

PENSION FUNDS

ASPIB has statutory responsibility for the pension (and other employee benefit) trust funds' investments. As the fiduciary, ASPIB has the statutory authority to invest the assets under the Prudent Investor Rule. Alaska Statute provides that investments shall be made with the judgement and care under circumstances then prevailing that an institutional investor of ordinary professional prudence, discretion, and intelligence exercises in managing large investment portfolios.

Investments are managed in a pooled environment. Actual investing is performed by investment officers in the Department of Revenue, Treasury Division or by contracted external investment managers. External management companies manage the External Domestic Fixed Income Pool, International Fixed Income Pool, Domestic Equity Pool, International Equity Pool, Emerging Markets Equity Pool, Real Estate Pool, and Private Equity Pool investments. In addition to acting as oversight manager for all externally managed investments, Treasury Division staff manage the Alaska Retirement Fixed Income Investment Pool, all mortgage-related assets and cash holdings of certain external domestic equity managers. Information

related to the various pools and investments is disclosed in the financial schedules issued by the Department of Revenue, Treasury Division.

Investments are recorded at fair value as defined by GASB Statement No. 31, except for mortgage-related assets, which are valued at their principal balance (cost) less an allowance for loan loss, the result of which approximates fair value.

Certain types of investments are not subject to the custodial credit risk disclosure requirements in GASB Statement No. 3. The Short-term Fixed Income Pool contains assets of other participants outside the control of ASPIB and, as such, cannot be categorized because the amounts reported represent interests in the pool rather than ownership of specific, identifiable securities. The Government Short-term Investment Fund is an institutional investment pool and, as such, cannot be categorized because the amounts reported represent interests in the fund rather than ownership of specific, identifiable securities. The private equity, real estate and mortgage related assets are not transferable financial instruments and therefore cannot be categorized with regard to custodial credit risk.

Trade date accounting is used for investment activity. Unsettled purchase transactions do not present credit risk as ASPIB and its custodian do not hold a deposit or margin account against unsettled purchases. Unsettled purchase and unsettled sale transactions related to mortgage-backed security pools yet to be announced do not present custodial risk because ASPIB has not taken possession of specific securities. These unsettled investment transactions cannot be categorized.

Securities Lending

Alaska Statute 37.10.071 authorizes the ASPIB to lend assets, under an agreement and for a fee, against deposited collateral of equivalent market value. In January 2001, the ASPIB entered into an agreement with State Street Corporation (the Bank) to lend fixed income, domestic equity and international equity securities. The Bank, acting as the ASPIB's agent under the

agreement, transfers securities to broker agents or other entities for collateral in the form of cash or securities and simultaneously agrees to return the collateral for the same securities in the future.

At June 30, 2003 the fair value of securities on loan allocable to the Pension Funds Invested Assets totaled \$935,479,000. There is no limit to the amount that can be loaned and the ASPIB is able to sell securities on loan. International equity security loans are fully collateralized at not less than 105 percent of their fair value. All other security loans are fully collateralized at not less than 102 percent of their fair value. The Bank invests the collateral in a commingled investment pool; maturities of these investments generally did not match the maturities of the loaned securities because the lending agreements are terminable at will. The Bank may pledge or sell collateral upon borrower default. Since ASPIB does not have the ability to pledge or sell the collateral unless the borrower defaults, no assets or liabilities are recorded on the financial statements. There is limited credit risk associated with the lending transactions since the ASPIB is indemnified by the Bank against any loss resulting from counterparty failure or default on a loaned security subject to limitation relating to war, civil unrest or revolution, or beyond the reasonable control of the Bank. The Bank and the borrower receive a fee from earnings on invested collateral.

For the year ended June 30, 2003 there were no losses incurred as a result of securities lending transactions and there were no significant violations of legal or contractual provisions nor failures by any borrowers to return loaned securities.

Foreign Exchange Contracts and Off-Balance Sheet Risk

The International Equity Pool includes foreign currency forward contracts to buy and sell specified amounts of foreign currencies at specified rates on specified future dates for the purpose of hedging existing security positions. The maturity periods for these contracts range from one to three months. The Fund had net unrealized gains with respect to such contracts, calculated using forward rates at June 30, as follows:

Net contract sales	\$ 1,443,000
Less: fair value	<u>1,424,491</u>
Net unrealized gains on contracts	<u>\$ 18,509</u>

The counterparties to the foreign currency forward contracts consist of a diversified group of financial institutions. Credit risk exposure exists to the extent of non-performance by these counterparties; however, the risk of default is considered to be remote. The market risk is limited to the difference between contractual rates and forward rates at the balance sheet date.

Commitments and Contingencies

The Board entered into agreements through external investment managers to provide capital funding for limited and general partnerships as it continues to build a private equity portfolio. At June 30, 2003, the Pension Funds had unfunded commitments totaled \$395,082,860 to be paid through the year 2008.

DEFERRED COMPENSATION

The State's Internal Revenue Code Section 457 deferred compensation plan holds investments in an Interest Income Fund and several collective investment funds: the International Equity Fund, Citizens Core Growth Fund, Small Cap Stock Fund, S&P 500 Index Fund, Tactical Asset Allocation Fund, Global Balanced Fund, Government/Credit Bond Fund, and the Intermediate Bond Fund. As of December 31, 2002, deferred compensation plan investments totaled \$346.9 million.

The Interest Income Fund is increased by contributions and earnings, and decreased by investment expenses and participant withdrawals paid to terminated members. The Interest Income Fund holds fully benefit responsive investment contracts (\$113.1 million) and shares in the Short-term Investment Fund (\$6.7 million) comprised of cash and cash equivalents. The investment contracts are stated at contract values, which approximate fair value. The investment contracts cannot be categorized into one of the three risk categories because they do not represent transferable financial instruments. Residual cash is held by the custodian in the Short-term Investment Fund in the State's name. Assets in the Short-term Investment Fund are comprised of short-term debt instruments with maturities not to exceed 13 months and are valued at fair value. The Short-term Investment Fund is a commingled investment fund and, as such, cannot be categorized into one of the three risk

categories because the amounts reported represent interests in the fund rather than ownership of specific, identifiable securities.

Investments in collective investment funds (\$227.1 million), held in trust, are stated at fair value based on the unit value as reported by the trustees multiplied by the number of units held. The unit value is determined by the trustees based on the fair market value of the underlying assets. Purchases and sales of assets within the collective investment funds are recorded on a trade-date basis. Investments in collective investment funds cannot be categorized into one of the three risk categories because they represent interests (shares) in funds rather than ownership of specific, identifiable securities.

SUPPLEMENTAL BENEFITS SYSTEM

Supplemental Benefits System (SBS) holds shares in the following participant-directed investment options: Alaska Balanced Fund, Alaska Target 2005 Fund, Alaska Target 2010 Fund, Alaska Target 2015 Fund, Alaska Target 2020 Fund, Long Term Balanced Fund, Small Cap Stock Trust Fund, International Equity Fund, S&P 500 Stock Index Fund, Tactical Asset Allocation Fund, Global Balanced Fund, Daily Government/Corporate Bond Fund, Citizens Core Growth Fund, and the Short-term Investment Fund. SBS also holds shares in the State's internally managed Short-term Fixed Income Pool. At January 31, 2003, SBS investments totaled \$1.57 billion (fair value). All assets are held in trust.

SBS investments in the Alaska Balanced Fund, Long Term Balanced Fund and the four Target 2000-series investment options are formed through combinations of six wholly-owned pooled investment funds: the GNMA (fixed income) Pool, Government/Corporate (fixed income) Pool, Cash Pool, Large Cap Equity Pool, Small Cap Equity Pool, and the International Equity Pool. Purchases and sales of underlying securities within the six investment pools are recorded on a trade-date basis, and all assets are recorded at fair value. The state's custodian bank holds the underlying securities in the state's name. Each pool's residual cash is held in the Short-term Investment Fund, a commingled investment fund.

SBS investments in the S&P 500 Stock Index Fund, Tactical Asset Allocation Fund, Global Balanced Fund, Daily Government/Corporate Bond Fund, Short-term Investment Fund, Citizens Core Growth Fund, Small Cap Stock Trust Fund, and the International Equity Fund are represented by shares in collective investment funds. All assets are stated at fair value based on the unit value as reported by the trustees multiplied by the number of units held by each of the respective collective investment funds. Unit value is determined by the trustees based on the fair value of the underlying assets. Purchases and sales of units are recorded on a trade-date basis.

Cash and cash equivalents consist of holdings in an institutional Short-term Investment Fund that cannot be categorized because it represents an interest (shares) in a fund rather than ownership of specific, identifiable securities. The collective investment funds cannot be categorized as they represent interests in funds rather than ownership of specific securities.

Investments at January 31, 2003, are summarized as follows (in thousands):

<u>Investments</u>	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Fair Value</u>
Pooled investment funds	<u>\$ 1,058,133</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 1,058,133
Not categorized				
Cash and cash equivalents				50,160
Collective investment funds				461,485
Total				<u>\$ 1,569,778</u>

Additional investment information is disclosed in the financial statements issued by the State's Supplemental Benefits System.

C. DEPOSITS AND INVESTMENTS MAINTAINED BY COMPONENT UNITS WHOSE ACCOUNTS ARE OUTSIDE OF THE STATE TREASURY

ALASKA PERMANENT FUND CORPORATION

Alaska Permanent Fund Corporation deposits and investments subject to classification according GASB Statement No. 3 are within risk category 1, the lowest risk category. The deposits and investments not subject to classification include cash and

money market funds, non-domestic equity emerging markets fund, real estate equity investments, and mortgages and property notes receivable.

CASH AND TEMPORARY INVESTMENTS

All cash and temporary investments bear interest at competitive rates, and are summarized as follows at June 30, 2003 (in thousands):

Cash (a)	\$ 106,720
U.S. agencies (b)	104,067
Treasury bills (b)	11,026
Commercial paper (c)	415,939
Total	<u>\$ 637,752</u>

- (a) Share ownership in a money market fund, payable on demand. Collateralized by underlying securities held by the money market fund in the name of the custodian.
- (b) Debt obligation guaranteed by the U.S. government held by the custodian in the name of the Fund.
- (c) Commercial paper rated investment grade, held by the custodian in the name of the Fund.

MARKETABLE DEBT SECURITIES

The Corporation is authorized by statute to invest Fund assets in (i) corporate bonds rated investment grade, (ii) obligations of the U.S. Treasury, its agencies and instrumentalities, and (iii) foreign obligations of comparable quality. All marketable debt securities are held by custodian banks in the name of the Fund. Marketable debt securities at June 30, 2003, are summarized as follows (in thousands):

	Cost	Market	Unrealized Gains/(Losses)
Treasury notes/bonds	\$ 3,349,451	\$ 3,405,231	\$ 55,780
Mortgage-backed securities	1,974,779	2,032,847	58,068
Other federal agencies	264,219	294,994	30,775
Corporate bonds	2,067,496	2,261,038	193,542
Nondomestic bonds	1,003,793	1,088,047	84,254
Total	<u>\$ 8,659,738</u>	<u>\$ 9,082,157</u>	<u>\$ 422,419</u>

PREFERRED AND COMMON STOCK

The Corporation is authorized by statute to invest Fund assets in the preferred and common stock of United States and nondomestic corporations. All preferred and common stock investments are held by custodian banks in the name of the Fund.

The Corporation may invest Fund assets in (i) equity securities up to 55 percent of total Fund investments, and (ii) other investments, which meet the test of prudence, including those currently authorized by law, up to 5 percent of total Fund investments.

Preferred and common stock at June 30, 2003, are summarized as follows (in thousands):

	Cost	Market	Unrealized Gains/(Losses)
Domestic	\$ 8,348,089	\$ 9,000,820	\$ 652,731
Nondomestic bonds	3,850,868	3,749,469	(101,399)
Total	<u>\$ 12,198,957</u>	<u>\$ 12,750,289</u>	<u>\$ 551,332</u>

ALASKA CERTIFICATES OF DEPOSIT

The Corporation is authorized by statute to invest Fund assets in certificates of deposit or the equivalent instruments of banks, savings and loan associations, mutual savings banks, and credit unions doing business in Alaska. Collateral, primarily in the form of letters of credit from the Federal Home Loan Bank or U.S. government securities, secure these investments.

REAL ESTATE

The Corporation is authorized by statute to invest Fund assets in real estate improved by substantially rented buildings located in the United States. Real estate investments may take the form of direct equity interests, real estate title-holding entities, real estate investment trusts, real estate operating companies, or other entities whose assets consist primarily of real property, debt obligations secured by real property, or similar entities. The Fund invests in direct real estate through its ownership of interests in corporations, limited liability companies and partnerships that own title to the real estate.

All real estate investments are held by the Corporation in its own name on behalf of the Fund, and are managed by professional real estate management firms. Real estate investment trusts and commercial mortgage-backed securities are held by custodian banks in the name of the Fund.

During the fiscal year ended June 30, 2003, the Corporation analyzed its real estate investments for permanent impairment. This review indicated that three assets were impaired, and consequently the carrying values of these assets were written down to their market values. The total charge to the asset carrying value and operating income was \$63,799,000. The statement of revenues, expenditures and changes in fund balances includes this amount in the net increase (decrease) in the fair value of investments – real estate.

The carrying value of real estate at June 30, 2003, was \$2,057,104,000. Direct real estate investments, commingled funds, property notes receivable, and commercial and residential mortgages are recorded in the financial statements using the equity method, which consists of the asset's historical cost plus the Fund's share of undistributed earnings from the asset. Real estate investment trusts and commercial mortgage-backed securities are recorded in the financial statements at their market value.

In the ordinary course of business, the Corporation has made commitments related to real estate investments. In the opinion of management, meeting these commitments will not have a material adverse effect on the Corporation's financial position, results of operation, or liquidity.

Real estate investments at June 30, 2003, are summarized as follows (in thousands):

	Cost/Equity Value	Market Value	Unrealized Gains/(Losses)	Carrying Value
Commingled funds	\$ 436	\$ 1,091	\$ 655	\$ 436
Real estate investment trusts	616,894	742,344	125,450	742,344

NOTE 5 – CAPITAL ASSETS

PRIMARY GOVERNMENT

Capital assets, which include property, plant, equipment, and infrastructure items (highways, bridges, and similar items) are reported in the applicable governmental and business-type activity columns of the government-wide financial statements.

Capitalization policy and useful lives for capital assets are as follows:

<u>Capital Asset</u>	<u>Governmental Activities</u>		<u>Business-type Activities</u>	
	<u>Capitalize at Value</u>	<u>Useful Life</u>	<u>Capitalize at Value</u>	<u>Useful Life</u>
Land	All	Indefinite	All	Indefinite
Infrastructure	\$1,000,000	15-75	\$100,000	5-40
Buildings	\$1,000,000	50	\$100,000	10-40
Equipment/software	\$100,000	3-60	\$5,000	5-10

State of Alaska art, library reserve, and museum collections that are considered inexhaustible, in that their value does not diminish over time, are not capitalized. These assets are: held for public exhibition, education, or research rather than financial gain; protected, kept unencumbered, cared for, and preserved; and proceeds from the sale of collection items are used to acquire other items for collections.

Capital asset activities for the fiscal year ended June 30, 2003, were as follows (in millions).

<u>Governmental Activities</u>	<u>Beginning Balance (restated)</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Capital assets not being depreciated:				
Land	\$ 649	\$ 11	\$ (1)	\$ 659
Construction in progress	1,914	385	(157)	2,142

The following relates to the land owned by the state:

- ◆ The total state entitlement amounts to approximately 105.7 million acres, 102.5 million of which was received through the Statehood Act. In accordance with the Alaska Statehood Act section 6(g), Alaska Native Claims Settlement Act, and the Alaska National Interest Lands Conservation Act, section 906(c), 90.1 million acres have been patented or “tentatively approved.”
- ◆ The state disposes of various land parcels through several programs. However, the state generally retains the subsurface rights of the land upon disposal.

Depreciation expense was charged to the functions of the primary government as follows (in millions):

Governmental Activities	Amount
General Government	\$ 2
Education	6
Health and Human Services	3
Law and Justice	3
Natural Resources	1
Public Protection	4
Transportation	34
Depreciation on capital assets held by the state's internal service funds is charged to the various functions based on their use of the assets.	15
Total Depreciation Expense – Governmental Activities	<u>\$ 68</u>

Total capital assets being depreciated, net	<u>1,134</u>	<u>(15)</u>	<u>(3)</u>	<u>1,116</u>
Capital assets, net	<u>\$ 1,426</u>	<u>\$ 176</u>	<u>\$ (49)</u>	<u>\$ 1,553</u>

Capital assets for the Alaska Industrial Development and Export Authority (\$84.6 million), which are included in the table above as infrastructure, are reported as investments in projects, partnerships, or corporations in the Statement of Net Assets. Also, University of Alaska art, library, and museum collections, which are capitalized but not depreciated, are reported in the statement of net assets as equipment. These assets are: held for public exhibition, education, or research rather than financial

gain; protected, kept unencumbered, cared for, and preserved; and proceeds from the sale of collection items are used to acquire other items for collections.

NOTE 6 – BONDS PAYABLE AND OTHER LONG-TERM OBLIGATIONS

A. SUMMARY OF CHANGES

The following table summarizes changes in long-term liabilities for the fiscal year ended June 30, 2003 (in thousands):

Governmental Activities	Beginning Balance (restated)	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue bonds payable	\$ 232,863	\$ 231	\$ 8,495	\$ 224,599	\$ -
General obligation debt	-	501,245	1,704	499,541	6,814
Notes payable	18,728	-	13,995	4,733	1,317
Capital leases payable	261,280	57,521	46,328	272,473	33,959

Total	<u>\$ 366,228</u>	<u>\$ 5,511</u>	<u>\$ 5,869</u>	<u>\$ 365,870</u>	<u>\$ 15,786</u>

B. GENERAL OBLIGATION BONDS, NORTHERN TOBACCO SECURITIZATION REVENUE BONDS, AND INTERNATIONAL AIRPORTS REVENUE BONDS

GENERAL OBLIGATION BONDS

The full faith, credit, and resources of the state are pledged to secure payment of general obligation bonds. As of June 30, 2003, the following were the general obligation bond debt outstanding (in millions):

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2004	\$ -	\$ 19.4	\$ 19.4
2005	23.6	22.9	46.5
2006	24.1	21.5	45.6
2007	24.7	20.3	45.0
2008	25.4	19.0	44.4
2009-2013	141.0	73.8	214.8
2014-2018	119.4	38.6	158.0
2019-2023	86.3	13.3	99.6
2024	17.4	0.4	17.8
Total debt service requirements	461.9	<u>\$ 229.2</u>	<u>\$ 691.1</u>
Unamortized bond premium	37.6		
Total principal outstanding	<u>\$ 499.5</u>		

The legislature authorized the issuance of general obligation bonds within chapter 114, SLA 2002 and chapter 2, SSSLA 2002 for a total of \$463,524,941. As of the end of FY 2003, \$461,935,000 had been issued, leaving a remaining authorization of \$1,589,941.

NORTHERN TOBACCO SECURITIZATION CORPORATION BONDS

The Northern Tobacco Securitization Corporation (NTSC) bonds were issued to purchase Tobacco Settlement Revenues (TSRs) from the State of Alaska. These revenue bonds are secured by and payable solely from the TSRs and investment earnings pledged under the Bond Indenture. Neither Alaska Housing Finance Corporation nor the State of Alaska is liable for any debt issued by NTSC. This debt is reported in the Governmental Activities column of the Government-wide Statement of Net Assets. Debt service requirements for NTSC are (in millions):

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2004	\$ -	\$ 12.9	\$ 12.9
2005	-	12.9	12.9
2006	\$ -	\$ 12.9	\$ 12.9
2007	-	12.9	12.9
2008	6.2	12.9	19.1
2009-2013	45.1	50.1	95.2
2014-2018	47.5	23.2	70.7
2019-2023	42.9	16.7	59.6
2024-2028	58.8	9.5	68.3
2029-2031	26.4	1.4	27.8
Total debt service requirements	226.9	<u>165.4</u>	<u>392.3</u>
Unamortized bond discounts	(2.3)		
Total principal outstanding	<u>224.6</u>		

INTERNATIONAL AIRPORTS REVENUE BONDS

Gross revenues derived from the operation of the international airports at Anchorage and Fairbanks are pledged to secure the payment of principal and interest on International Airports revenue bonds. All bonds authorized by the Alaska legislature have been issued. This debt is reported in the Business-type Activities column of the Government-wide Statement of Net Assets. Debt service requirements are (in millions):

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2004	\$ 6.6	\$ 18.4	\$ 25.0
2005	10.0	18.0	28.0
2006	10.5	17.6	28.1
2007	10.9	17.2	28.1
2008	11.8	16.6	28.4
2009-2013	65.8	74.0	139.8
2014-2018	79.5	54.5	134.0
2019-2023	93.6	31.9	125.5
2024-2028	73.2	7.6	80.8
Total debt service requirements	361.9	255.8	617.7
Unamortized bond issuance costs and discounts	(5.4)		
Total principal outstanding	<u>\$ 356.5</u>		

C. CAPITAL AND OPERATING LEASES

A summary of noncancelable operating and capital leases commitments to maturity are (in millions):

<u>Governmental Activities</u>	<u>Operating</u>	<u>Capital Leases</u>		
<u>Year Ending June 30</u>	<u>Leases</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2004	\$ 9.0	\$ 884.2	\$ 98.7	\$ 982.9
2005	7.0	480.6	29.2	509.8
2006	6.3	28.8	10.4	39.2
2007	6.2	25.0	8.9	33.9
2008	4.3	23.9	7.7	31.6
2009-2013	11.5	79.6	24.4	104.0
2014-2018	3.7	37.7	9.5	47.2
2019-2023	0.1	13.3	1.3	14.6
Total	<u>\$ 48.1</u>	<u>\$ 1,573.1</u>	<u>\$ 190.1</u>	<u>\$ 1,763.2</u>

D. CERTIFICATES OF PARTICIPATION

The state has lease purchase agreements funded through certificates of participation (COPs). These leases are for the purchase of buildings. Third-party leasing companies assigned their interest in the lease to underwriters, which issued certificates for the funding of these obligations. The COPs represent an ownership interest of the certificate holder in a lease purchase agreement. While the state is liable for lease payments to the underwriters, the state is not liable for payments to holders of the certificates.

The following schedule presents future minimum payments as of June 30, 2003 (expressed in millions):

<u>Governmental Activities</u>	<u>Certificates of Participation</u>		
<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2004	\$ -	\$ 0.7	\$ 0.7
2005	1.0	0.7	1.7
2006	1.0	0.6	1.6
2007	1.0	0.6	1.6
2008	1.1	0.6	1.7
2009-2013	6.0	2.1	8.1
2014-2018	5.9	0.6	6.5
2019-2023	-	-	-
Total	<u>\$ 16.0</u>	<u>\$ 5.9</u>	<u>\$ 21.9</u>

E. DISCRETELY PRESENTED COMPONENT UNITS

Debt service requirements are (in millions):

Year Ending June 30	Principal	Interest	Total
2004	\$ 155.9	\$ 213.1	\$ 369.0
2005	180.4	204.6	385.0
2006	164.9	196.2	361.1
2007	137.1	189.0	326.1
2008	120.7	182.8	303.5
2009-2013	674.8	817.8	1,492.6
2014-2018	654.1	681.5	1,335.6
2018-2023	711.3	513.7	1,225.0
2024-2028	561.5	366.4	927.9
2029-2033	512.0	228.9	740.9
2034-2038	396.8	126.4	523.2
2039-2043	94.2	32.2	126.4
2044-2048	56.4	13.2	69.6
2049-2053	12.3	0.6	12.9
2054-2058	-	-	-
Total debt service requirements	\$ 4,432.4	\$ 3,766.4	\$ 8,198.8
Unamortized discounts, unexpended bond proceeds, accreted interest, & deferred amount on refunding	(2.3)		
Total principal outstanding	\$ 4,430.1		

The preceding table does not include \$604,000 of Alaska Energy Authority arbitrage interest payable.

F. AHFC DERIVATIVES

SWAP OBJECTIVES

In order to both reduce the Corporation's overall cost of borrowing long-term capital and protect against the potential of rising interest rates, AHFC entered into six separate pay-fixed, receive-variable interest rate swap agreements at a cost anticipated to be less than what the Corporation would have paid to issue conventional fixed-rate debt.

SWAP PAYMENTS AND ASSOCIATED DEBT

As of June 30, 2003, debt service requirements of the Corporation's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are displayed in the following schedule (in thousands). As interest rates vary, variable-rate bond interest payments and net swap payments will also vary.

Year Ending June 30	Outstanding Variable-Rate Debt Principal	Outstanding Variable-Rate Debt Interest	Swap Net Payment	Total Payment
2004	\$ 3,360	\$ 4,294	\$ 13,859	\$ 21,513
2005	3,505	4,243	13,744	21,492
2006	3,640	4,214	13,623	21,477
2007	3,795	4,176	13,498	21,469
2008	4,640	4,142	13,364	22,146
2009-2013	36,030	19,789	64,058	119,877
2014-2018	72,920	16,889	54,889	144,698
2019-2023	91,280	12,750	41,485	145,515
2024-2028	86,560	7,964	25,850	120,374
2029-2033	66,895	3,730	12,095	82,720
2034-2037	36,430	819	2,668	39,917
Total	<u>\$ 409,055</u>	<u>\$ 83,010</u>	<u>\$ 269,133</u>	<u>\$ 761,198</u>

SIGNIFICANT TERMS

The terms, fair values and credit ratings of the Corporation's outstanding swaps as of June 30, 2003, are included in the following schedule (in thousands). The notional amounts of the swaps match the principal amounts of the associated debt. These notional amounts amortize over a time period that approximates the payments the Corporation would experience with a fixed-rate, level debt service schedule and are expected to follow scheduled or anticipated reductions in the associated bonds outstanding.

Related Bond Issue	Notional Amounts	Fair Values	Effective Dates	Fixed Rate Paid	Variable Rate Received	Termination Date	Counterparty Credit Rating ⁶
GP01A ¹	\$ 73,920	\$ (9,978)	8/2/2001	4.1427%	67% of LIBOR ⁴	12/1/2030	A/A2
GP01B ¹	90,330	(12,295)	8/2/2001	4.1427%	67% of LIBOR ⁴	12/1/2030	A+/Aa3
E021A1 ²	50,000	(6,648)	5/16/2002	4.1030%	68% of LIBOR ⁴	6/1/2032	AAA/Aaa

SC02B ³	14,555	(946)	12/5/2002	3.7700%	70% of LIBOR ⁴	7/1/2024	AAA/Aaa
SC02C ³	60,250	(4,217)	12/5/2002	4.3030%	BMA ⁵ +0.115%	7/1/2022	AAA/Aaa
Total	<u>\$ 409,055</u>	<u>\$ (49,628)</u>					

¹ Governmental Purpose Bonds

² Home Mortgage Revenue Bonds

³ State Capital Project Bonds

⁴ London Interbank Offered Rate

⁵ The Bond Market Association Municipal Swap Index

⁶ Standard & Poors/Moodys

FAIR VALUE

Because interest rates have declined sharply since the agreements became effective, all of the Corporation's interest rate swaps had a negative fair value as of June 30, 2003. The negative fair values may be countered by reductions in total interest payments required under the variable-rate bonds. Given that coupons on the Corporation's variable-rate bonds adjust to changing interest rates, the associated debt does not have corresponding increases in fair value. The fair value amounts, obtained from Mark to Market statements from the respective counterparties, represent mid-market valuations that approximate the current economic value using market averages, reference rates, and/or mathematical models. Actual trade prices may vary significantly from these estimates as a result of various factors, which may include (but are not limited to)

portfolio composition, current trading intentions, prevailing credit spreads, market liquidity, hedging costs and risk, position size, transaction and financing costs, and use of capital profit. If a swap is terminated, fair value represents the current price to settle swap liabilities in the marketplace.

RISKS

- ◆ **Credit Risk.** As of June 30, 2003, the Corporation was not exposed to credit risk on any of its outstanding swaps because they all had negative fair values. If interest rates rise and the fair values of the swaps become positive, the Corporation would be exposed to credit risk in the amount of the swap's fair value. The swap agreements contain varying collateral agreements with the counterparties and require full collateralization of the fair value amount of the swap should the counterparty's rating fall below specific levels. The Corporation currently has swap agreements with four separate counterparties. Approximately 60% of the notional amount of swaps outstanding is held with two separate counterparties, both of whom are rated AAA/Aaa. Of the remaining swaps, the Corporation holds one agreement with another counterparty, rated A+/Aa2, approximating 22% of the outstanding notional value, and one agreement with another counterparty, rated A/A2, approximating 18% of the outstanding notional value.
- ◆ **Basis Risk.** The Corporation's variable-rate bond coupon payments are based on the BMA index rate. Therefore, the Corporation is exposed to basis risk on the swaps where the variable payment received is based on a LIBOR index rather than a BMA index. As of June 30, 2003, the BMA rate was 0.98%, whereas LIBOR was 1.11375%. Since the spread between LIBOR and BMA has narrowed, the expected cost savings from the swaps, which is subject to future changes, may not be as large as originally anticipated.
- ◆ **Rollover Risk.** Rollover risk occurs when there is a mismatch in the amortization of the swap versus the amortization of the floating rate bonds. The Corporation has structured the swaps to amortize at the same rate as scheduled or anticipated reductions in the associated floating rate bonds outstanding. As the swaps amortize, the bonds will be redeemed to match the remaining notional amounts. In addition, the swaps covering the 2001 Government Purpose Bonds cover only a portion of the debt issuance, allowing any increase in the speed of mortgage prepayments to be directed at the unswapped portion of the debt. The swap agreements associated with the 2002 Home Mortgage Revenue Bonds were structured around several tranches, allowing the Corporation to cancel individual tranches of the swap to match special redemptions of the bonds. The result of these swap structures is a decrease in rollover risk usually caused by rapid mortgage prepayments.
- ◆ **Termination Risk.** If any of the swaps are terminated, the associated floating rate bonds would no longer carry synthetic interest rates and, thus, would be exposed to interest rate risk. This risk is mitigated by the fact that the termination payment could be used to enter into an identical swap at the termination date of the existing swap. Furthermore, if any of the swaps have a negative fair value at termination, the Corporation would be liable to the counterparty for payments equal to the swaps' fair value. The Corporation or the counterparty may terminate any of the swaps if the other party fails to perform under the terms of the agreement. As of June 30, 2003, the Corporation is not exposed to any additional termination risk on its interest rate swap agreements.

NOTE 7 – DEFINED BENEFIT PENSION PLANS

A. STATE ADMINISTERED PLANS

DESCRIPTION OF PLANS

THE PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)

PERS is a defined benefit, agent, multiple-employer public employee retirement system established and administered by the state to provide pension and postemployment healthcare benefits for eligible state and local government employees. Benefit and contribution provisions are established by Chapter 35 of Alaska Statute Title 39, and may be amended only by the state legislature. PERS provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits.

PERS is considered a component unit of the state financial reporting entity. PERS issues a separate stand-alone financial report that includes financial statements and required supplementary information. PERS is also reported as a pension (and

other employee benefit) trust fund by the state. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

At June 30, 2003, the number of participating employers was:

State of Alaska	1
Municipalities	78
School Districts	53
Other	28
Total employers	<u>160</u>

Current employee contribution rates are 6.75 percent of compensation (7.5 percent for peace officers and firefighters and 9.6 percent for some school district employees). The employee contributions are deducted before federal income tax is withheld. The PERS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are adequate to accumulate sufficient assets to pay both pension and postemployment health care benefits when due. Employer contribution rates are level percentages of payroll and are determined using the projected unit credit actuarial funding method. The employer rate for the State of Alaska for the year ended June 30, 2003, was 7.2 percent of compensation (7.1 for peace officers and firefighters).

The Schedule of Funding Progress for the State of Alaska for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
1999	\$3,064,962	\$2,902,304	\$(162,658)	105.6%	\$727,953	(22.3%)
2001	3,486,365	3,462,943	(23,422)	100.7%	781,286	(3.0%)
2002	2,864,058	3,854,165	990,107	74.3%	818,543	121.0%

Postemployment healthcare benefits are provided to retirees without cost for all employees first hired before July 1, 1986, and employees who are disabled or age sixty-five or older, regardless of initial hire dates. Employees first hired after June 30, 1986, with five years of credited service (or ten years of credited service for those first hired after July 1, 1996) must pay the full monthly premium if they are under age sixty, and receive benefits at no premium cost if they are over age sixty or are receiving disability benefits. Police and fire employees with 25 years of membership service also receive benefits at no premium cost.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the state, was established. The RHF is self-funded and provides major medical coverage to retirees. Retirees of three other state plans also participate in the RHF. The retirement plans retain the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The Schedule of Funding Progress for the State of Alaska for postemployment healthcare benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
1999	\$1,242,503	\$1,176,563	\$(65,940)	105.6%	\$727,953	(9.1%)
2001	1,476,115	1,466,201	(9,914)	100.7%	781,286	(1.3%)
2002	1,740,149	2,341,721	601,572	74.3%	818,543	73.5%

The state's annual required contributions for pension and postemployment healthcare benefits for the fiscal years ended June 30, 2003, 2002, and 2001 were \$53.1, \$50.5, and \$53.4 million respectively. The state contributed 100 percent for each of those years resulting in no net pension obligation (NPO).

THE TEACHERS' RETIREMENT SYSTEM (TRS)

TRS is a defined benefit, cost-sharing, multiple-employer public employee retirement plan established to provide pension and postemployment healthcare benefits for teachers and other eligible participants.

At June 30, 2003, the number of participating employers was:

State of Alaska	1
School Districts	53
Other	3
Total employers	<u>57</u>

TRS is considered a component unit of the state financial reporting entity. TRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. TRS is also reported as a pension (and other employee benefit) trust fund by the state. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 14 and may be amended only by the state legislature. TRS provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits.

Plan members contribute 8.65 percent of their base salary, as required by statute. The employee contributions are deducted before federal income tax is withheld. Eligible employees contribute an additional 1 percent of their salary under the supplemental contribution provision. The TRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are adequate to accumulate sufficient assets to pay benefits when due. Employer contribution rates are level percentages of payroll and are determined using the projected unit credit actuarial funding method. The employer rate for the State of Alaska for the year ended June 30, 2003, was 11 percent of compensation.

Postemployment healthcare benefits are provided without cost to all employees first hired before July 1, 1990, and employees who are disabled or age sixty-five or older, regardless of initial hire dates. Employees first hired after June 30, 1990, may receive postemployment healthcare benefits prior to age sixty by paying premiums.

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the state, was established. The RHF is self-funded and provides major medical coverage to retirees. Retirees of three other state plans also participate in the RHF. The retirement plans retain the risk of loss of allowable claims. The RHF issues a financial report that may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

The state's contributions to TRS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$652,507, \$666,539, and \$641,569 respectively, equal to the required contributions for each year.

THE JUDICIAL RETIREMENT SYSTEM (JRS)

JRS is a defined benefit, single-employer retirement system established to provide pension and postemployment healthcare benefits for eligible state judges and justices.

JRS is considered a component unit of the state financial reporting entity. JRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. JRS is also reported as a pension (and other employee benefit) trust fund by the state. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Benefit and contribution provisions are established by Chapter 25 of Alaska Statute Title 22 and may be amended only by the state legislature. JRS provides for normal pension benefits, as well as death, disability, and postemployment healthcare benefits.

Members contribute 7 percent of their compensation to JRS. The contributions are deducted after federal income tax is withheld. Contributions are not required after members have made contributions for fifteen years, or from members first appointed before July 1, 1978. The JRS funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual-covered payroll, are adequate to accumulate sufficient assets to pay benefits when due. Employer contribution rates are level percentages of payroll and are determined using the projected unit credit actuarial funding method. The employer rate for the State of Alaska for the year ended June 30, 2003, was 28.28 percent of compensation.

The Schedule of Funding Progress for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Funding Excess (FE)/(Unfunded Actuarial Accrued Liabilities) (UAAL)	Funded Ratio	Covered Payroll	FE/(UAAL) as a Percentage of Covered Payroll
1998	\$60,794	\$57,780	\$3,014	105.2%	\$5,716	52.7%
2000	68,116	68,888	(772)	98.9%	5,702	(13.5%)
2002	56,705	63,970	(7,265)	88.6%	5,942	(122.3%)

Prior to July 1, 1997, postemployment healthcare benefits were provided by the payment of premiums to an insurance company. Beginning July 1, 1997, the Retiree Health Fund (RHF), a pension trust fund of the state, was established. The RHF is self-funded and provides major medical coverage to retirees. Retirees of two other state plans also participate in the RHF. The retirement plans retain the risk of loss of allowable claims.

Postemployment healthcare benefits are provided without cost to retired JRS members. The Schedule of Funding Progress for postemployment healthcare benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Funding Excess (FE)/(Unfunded Actuarial Accrued Liabilities) (UAAL)	Funded Ratio	Covered Payroll	FE/(UAAL) as a Percentage of Covered Payroll
1998	\$3,896	\$3,703	\$193	105.2%	\$5,716	3.4%
2000	4,545	4,596	(51)	98.9%	5,702	(0.9%)
2002	6,979	7,873	(894)	88.6%	5,942	(15.0%)

The annual required contributions for pension and postemployment healthcare benefits for the fiscal years ended June 30, 2003, 2002, and 2001 were \$1,746,251, \$1,005,968, and \$984,011. The state contributed 100 percent for each of those years resulting in no net pension obligation (NPO).

THE ALASKA NATIONAL GUARD AND ALASKA NAVAL MILITIA RETIREMENT SYSTEM (NGNMRS)

NGNMRS is a defined benefit, single-employer retirement system established and administered by the state to provide pension benefits for eligible members of the Alaska National Guard and Alaska Naval Militia.

NGNMRS is considered a component unit of the state financial reporting entity. NGNMRS issues a separate stand-alone financial report that includes financial statements and required supplementary information. The plan is also reported as a pension (and other employee benefit) trust fund by the state. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Benefit and contribution provisions are established by Chapter 5 of Alaska Statute Title 26 and may be amended only by the state legislature. NGNMRS provides for normal pension benefits and death benefits. Postemployment healthcare benefits are not provided.

No contributions are required from plan members. NGNMRS's funding policy provides for periodic contributions by Alaska Department of Military and Veterans' Affairs at actuarially determined amounts that are adequate to accumulate sufficient assets to pay benefits when due. State contributions are determined using the projected unit credit actuarial funding method.

The Schedule of Funding Progress for pension benefits follows (in thousands):

Actuarial Valuation Year Ended June 30	Actuarial Value of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded Actuarial Accrued Liabilities (UAAL)	Funded Ratio
1998	\$12,671	\$14,252	(\$1,581)	88.9%
2000	13,734	17,967	(4,233)	76.4%
2002	12,114	20,545	(8,431)	59.0%

The annual required contributions for the fiscal years ended June 30, 2003, 2002, and 2001 were \$1,322,500, \$879,800, and \$879,800. The percentage contributed for each year was 100 percent.

THE ELECTED PUBLIC OFFICERS RETIREMENT SYSTEM (EPORS)

EPORS is a defined benefit retirement plan covering the governor, the lieutenant governor, and all legislators that participated in the System between January 1, 1976, and October 14, 1976. EPORS is funded by both employee contributions and an annual appropriation from the state general fund. Retirement benefits are based on the member's years of service and the current salary for the position from which they retired or an average of the three highest consecutive years' salaries. The pension benefit is equal to 5 percent for each year of service as governor, lieutenant governor, or a legislator, plus 2 percent for other covered service, not to exceed 75 percent (AS 39.37.050). The plan also provides death and disability benefits.

Plan members contribute 7 percent of their compensation to EPORS. Employee contributions earn interest at 4.5 percent per annum, compounded semiannually. The remaining amount required to pay EPORS benefits is funded by legislative appropriation. The FY 03 cost to the state for EPORS was \$1.4 million, and the contributions received from employees totaled \$30,683. No separate financial statement is issued for EPORS.

ASSET VALUATION

See Note 4 for information on pension funds' deposits and investments risk categories. The table below discloses the fair value of each pension plan's cash and investments. All amounts are in thousands.

<u>Systems</u>	<u>Fair Value</u>
Public Employees' Retirement System	\$7,389,406
Teachers' Retirement System	3,599,113
Judicial Retirement System	63,508
Alaska National Guard and Alaska Naval Militia Retirement System	12,732

PLAN MEMBERSHIPS

The table below includes the plan membership counts. With the exception of EPORS, the counts are as of the actuarial valuation report date. The plan membership count for EPORS is based upon membership as of 6/30/03.

	<u>PERS</u>	<u>TRS</u>	<u>JRS</u>	<u>NGNMRS</u>	<u>EPORS</u>
	<u>6/30/02</u>	<u>6/30/02</u>	<u>6/30/02</u>	<u>6/30/02</u>	<u>6/30/03</u>
Retirees & beneficiaries receiving benefits & terminated members with future benefits	22,917	8,587	82	1,143	37
Current active employees:					
Vested	18,659	5,224	43	*	4
Nonvested	14,583	4,466	13	3,538	-
Total	<u>56,159</u>	<u>18,277</u>	<u>138</u>	<u>4,681</u>	<u>41</u>

* A breakdown of active employees between vested and nonvested was not available for NGNMRS.

FUNDING STATUS AND PROGRESS

ACTUARIAL METHOD AND ASSUMPTIONS

All systems use the “projected unit credit” method. The unfunded accrued benefit liability or funding surplus is amortized over a rolling 25 years (NGNMRS is 20 years).

The objective under this method is to fund each participant’s benefits under the plan as they accrue. Thus, each participant’s total pension projected to retirement with salary scale is broken down into units, each associated with a year of past or future service. The principle underlying the method is that each unit is funded in the year for which it is credited. Typically, when the method is introduced there will be an initial liability for benefits credited for service prior to that date. To the extent that this liability is not covered by assets of the plan there is an unfunded liability to be funded over a chosen period in accordance with an amortization schedule.

The following main assumptions were used in the actuarial valuation.

System	Investment Return Compounded Annually	Salary Scale Increase	Health Cost Inflation	Consumer Price Index Inflation	Valuation Date
PERS	8.25%	6.0% first 5 years - Police & Firefighters, first 10 Years - all others 5.5% thereafter	FY 03 - 05 - 12.0%; FY 06 - 11.5%; FY 07 - 11.0%; FY 08 - 10.5%; FY 09 - 10.0%; FY 10 - 9.5%, FY 11 - 9.0%, FY 12 - 8.5%, FY 13 - 8.0%, FY 14 - 7.5%, FY 15 - 7.0%, FY 16 - 6.0%, and FY 17 and later - 5.0%	3.5%	6/30/02
TRS	8.25%	5.5% first 5 years	FY 03 - 05 - 12.0%; FY 06 - 11.5%; FY 07 - 11.0%, FY 08 - 10.5%; FY 09 - 10.0%, FY 10 - 9.5%, FY 11 - 9.0%; FY 12 - 8.5% FY 13 - 8.0%; FY 14 - 7.5%, FY 15 - 7.0%, FY 16 - 6.0%, and FY 17 and later - 5.0%	3.5%	6/30/02
JRS	8.25%	4.0% per year	FY 03 - 05 - 12.0%; FY 06 - 11.5%; FY 07 - 11.0%, FY 08 - 10.5%; FY 09 - 10.0%, FY 10 - 9.5%, FY 11 - 9.0%; FY 12 - 8.5% FY 13 - 8.0%; FY 14 - 7.5%, FY 15 - 7.0%, FY 16 - 6.0%, and FY 17 and later - 5.0%	3.5%	6/30/02
NGNMRS	8.25%	-	-	-	6/30/02
EPORS	9.0%	6.0 % per year	9.0% per year	-	6/30/86

All assets are at fair value, with 20 percent of the investment gains or losses recognized in each of the current and preceding four years. Valuation assets cannot be outside a range of 80 to 120 percent of the fair value of assets.

B. NON-STATE ADMINISTERED PLANS

THE MARINE ENGINEERS' BENEFICIAL ASSOCIATION (MEBA) PENSION PLAN

The MEBA plan is a defined benefit pension plan administered by MEBA for its members. Engineer Officers of the Alaska Marine Highway System participate in this program and the state contributes an amount (set by union contract) for each employee. The state assumes no liability for this pension plan or its participants other than the payment of required contributions. The state contributed \$481.6 thousand in FY 03.

NOTE 8 – DEFINED CONTRIBUTION PENSION PLANS

A. STATE ADMINISTERED PLANS

SUPPLEMENTAL BENEFITS SYSTEM

In addition to the pension plans (Note 7) and deferred compensation plan (Note 9), all state employees, as well as employees of political subdivisions, who have elected to participate in the program, are covered under the Alaska Supplemental Benefits System (SBS). SBS is comprised of the Supplemental Annuity Plan and the Supplemental Benefits Plan. The Supplemental Annuity Plan is a defined contribution plan that was created under Alaska statutes effective January 1, 1980, to provide

benefits in lieu of those provided by the Federal Social Security System (Social Security). All state employees, who would have participated in Social Security if the state had not withdrawn, participate in SBS. Other employers whose employees participate in the state Public Employees' Retirement System and meet other requirements are eligible to have their employees participate in SBS as provided by Alaska Statute. As of January 31, 2003, there were fifteen other employers participating in SBS. There were approximately 31,000 participants in the Plan.

The Division of Retirement and Benefits is responsible for administration and record keeping. The Alaska State Pension Investment Board is responsible for the specific investment of moneys in SBS.

SBS is considered a component unit of the state financial reporting entity. SBS issues a separate stand-alone financial report that includes financial statements and required supplementary information, and SBS is also reported as a pension (and other employee benefit) trust fund by the state. Copies of the audited financial statements may be obtained from the Division of Retirement and Benefits, P.O. Box 110203, Juneau, AK 99811-0203.

Mandatory contributions are made to the Supplemental Annuity Plan and voluntary contributions to the Supplemental Benefits Plan. Participating employees are vested at all times. Supplemental Annuity Plan contributions are made in lieu of contributions to Social Security. The state is required to contribute 12.26 percent of an employee's wages up to the taxable wage base in effect under Social Security regulations. Each employee is considered to have agreed to a wage reduction equal to one-half the contribution made on the employee's behalf. The state's mandatory contributions for the year ending January 31, 2003, were \$95.1 million. The state's covered payroll was approximately \$775.4 million.

Supplemental Benefit Plan contributions are voluntary based upon the optional benefits elected by each employee enrolled in SBS. Each employee agrees to a wage reduction based upon the benefit options selected. The benefit amounts are deducted from each employee's wages and remitted by the employer to SBS on the employee's behalf. State employee voluntary contributions for the year ending January 31, 2003, were approximately \$4.6 million.

Employees are eligible to withdraw from the Supplemental Annuity Plan sixty days after termination. Benefits are payable in the form of a lump sum annuity or one of various continuing annuities purchased from an insurance carrier. The SBS administrator issues lump-sum payments through its contracted record keeper.

Benefits available under the Supplemental Benefits Plan include supplemental health, death, disability, survivor benefits, and dependent care reimbursement. Selection of these benefits is at the discretion of the employee, with certain restrictions and may be amended and/or changed on an annual basis or in conjunction with an employee change in status. The state maintains a separate self-insurance fund to provide for health benefits. All other supplemental benefits, except dependent care reimbursement, are provided through insurance policies. The state administers the dependent care reimbursement plan.

Supplemental annuity contributions were deposited with investment managers under contract with SBS for the year ended January 31, 2003. The amounts credited to each participant account include the appreciation or depreciation in the unit values of the investment funds, in addition to participant contributions received during the year and deduction for administrative fees.

Participant accounts under the Supplemental Annuity Plan are self-directed with respect to investment options. Each participant designates how contributions are allocated among the investment options. Each participant's account is credited with the contributions and the increase or decrease in unit value for the investment funds.

B. NON-STATE ADMINISTERED PLANS

THE NORTHWEST MARINE RETIREMENT TRUST (NMRT)

NMRT is an agent multiple-employer pension plan with defined contributions and is administered by the Pacific Northwest Marine Retirement Trust. The state assumes no liability for this pension plan or its participants other than the payment of required contributions. The state contributed \$638.2 thousand in FY 03.

NOTE 9 – DEFERRED COMPENSATION PLAN

The State of Alaska Deferred Compensation Plan (Plan) was created by Alaska statutes. It is a deferred compensation plan under section 457 of the Internal Revenue Code and is available to all permanent employees or elected officials of the state (and with the April 1, 2003 amendment all long term non-permanent employees) who have completed a full pay period of employment. Participants authorize the state to reduce their current salary so that they can receive the amount deferred at a later date. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency, within the definition allowed by the applicable Internal Revenue Codes. As of December 31, 2002, the Plan had approximately 7,700 participants.

As a result of the passage of The Small Business Job Protection Act of 1996 (SBJPA), all amounts deferred, including amounts deferred before the effective date of the new law, under an eligible 457 plan must be held in a trust for the exclusive benefit of employees and beneficiaries. This new law repealed the requirement that a section 457 plan sponsored by a government be solely the property of the employer, subject only to the claims of the employer's general creditors. The trust requirement generally applies to assets and income held by a plan on and after the date of enactment of the SBJPA. The Plan Document for the State of Alaska Deferred Compensation Plan was amended to recognize and establish the Trust requirement for the Plan.

The Division of Retirement and Benefits is responsible for Plan administration and recordkeeping. The Alaska State Pension Investment Board is responsible for the specific investment of moneys in the plan.

Participant accounts are self-directed with respect to investment options. Each participant designates how his or her contribution is to be allocated among the investment options. Each participant's account is credited with the participant's contributions and the increase or decrease in unit value for the investment funds.

Deferred compensation net assets as of December 31, 2002, were \$348.3 million. Deferred compensation is reported in the accompanying financial statements as a pension (and other employee benefit) trust fund.

NOTE 10 – INTERFUND TRANSACTIONS

The following schedules summarize individual interfund and component unit receivable and payable balances at June 30, 2003, and interfund transfers for the year then ended (in thousands):

RECEIVABLES

Fund or Component Unit	Interfund	Primary Government	Component Units	Total
Primary Government:				
General Fund	\$ 736,648	-	\$ 103,937	\$ 840,585

Total	<u>\$ 703,985</u>	<u>\$ 2,522</u>	<u>\$ 600</u>	<u>\$ 1,711</u>	<u>\$708,818</u>

* The "Other" category is a combination (net) of various items that are not consistently reported in the three classifications identified above. This inconsistency results from: (1) a difference in the basis of accounting such as College and Universities are not on the same basis as the general fund and enterprise funds, enterprise funds are on the full accrual accounting basis while the governmental funds are on the modified accrual basis; (2) timing differences due to differing fiscal year ends; and (3) some inconsistent classifications as a result of the nature of the operation.

NOTE 11 – SEGMENT INFORMATION - ENTERPRISE FUNDS

The State of Alaska International Airport System (a major enterprise fund) was created to equip, finance, maintain, and operate the two international airports located at Anchorage and Fairbanks, Alaska. The airports are under the administration of the Alaska Department of Transportation and Public Facilities. The following schedule presents summary financial information for the International Airport System for the fiscal year ended June 30, 2003 (stated in thousands).

CONDENSED STATEMENT OF NET ASSETS

Assets:	
Current assets	\$ 124,307
Restricted assets	218,600
Capital assets, net	575,856
Total assets	<u>918,763</u>
Liabilities:	
Current liabilities	21,860
Due to other funds	39,433
Noncurrent liabilities	350,064
Total liabilities	<u>411,357</u>
Net assets:	
Invested in capital assets, net of related debt	415,389
Restricted	12,581
Unrestricted	79,436
Total net assets	<u>\$ 507,406</u>

CONDENSED STATEMENT OF REVENUES, EXPENSES, AND
CHANGES IN NET ASSETS

Airfield operations revenue	\$ 51,000
Other operating revenue	25,753
Depreciation expense	(21,733)
Other operating expense	(54,686)
Operating Income	334
Nonoperating revenues (expenses):	
Investment earnings	6,567
Interest expense	(1,473)
Other nonoperating revenue (expenses) - net	(5,299)
Capital contributions	42,135
Change in net assets	42,264
Beginning net assets	465,142
Ending net assets	\$ 507,406

CONDENSED STATEMENT OF CASH FLOWS

Net cash provided (used) by:	
Operating activities	\$ 34,892
Capital and related financing activities	(96,818)
Investing activities	63,782
Net increase (decrease)	1,856
Beginning cash and cash equivalents	19,330
Ending cash and cash equivalents	\$ 21,186

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. SICK LEAVE

The cost of state employee sick leave is charged against agency appropriations when leave is used rather than when leave is earned. There is no recorded liability for sick leave in the financial records of the state. Accordingly, the statements in this report do not include an estimate of this obligation as either a liability or a reserve.

Accumulated sick leave may be used only for actual illness. When an employee separates from state service, any sick leave balance to their credit is reduced to zero without additional compensation to the employee.

The estimated amount of unused accumulated sick leave as of June 30, 2003, is \$44 million. This amount was calculated using the base pay on file for each employee as of June 30, 2003. It does not include an estimate of the cost of fringe benefits (supplemental benefits, retirement, group insurance, etc.) which can vary from 5 percent to 28 percent of gross pay depending on the status of the employee when leave is taken.

B. SCHOOL DEBT

Under a program enacted in 1970 (AS 14.11.100), the state may reimburse municipalities up to 80, 90, or 100 percent of debt service on bonds issued to finance school construction. The percentage depends on the year in which the costs are incurred. The 80 percent limitation, enacted in 1985, applies to fiscal years after June 30, 1983. The higher percentages apply to earlier years.

Although the statute provides that the state may reimburse school districts 80, 90, or 100 percent of construction costs, the actual funding for the program is dependent on annual legislative appropriations to the school construction account. When amounts in the account are insufficient, the available funds are allocated pro rata among the eligible school districts. There is no contractual commitment by the state to make these payments. The amount for FY 03 expended for school debt was \$52.0 million, which was 100 percent of the entitlement. The total debt requirement assuming the state makes full payment of its share of school debt service would be approximately \$727.0 million. The state has in the past and may in the future appropriate less than the full amount to which the municipalities are entitled under statute.

C. RISK MANAGEMENT AND SELF-INSURANCE

The state maintains a risk management program that is administered by the Department of Administration, Division of Risk Management. The Division of Risk Management's objective is to protect the financial assets and operations of the State of Alaska from accidental loss through a comprehensive self-insurance program for normal and expected property and casualty claims of high frequency and low severity, combined with high-limit, broad-form excess insurance protection for catastrophic loss exposures.

Risk Management acts as the insurance carrier for each state agency, funding all sudden and accidental property and casualty claims. The annual premiums allocated by Risk Management are the maximum each agency is called upon to pay. This planning for known and catastrophic losses forestalls the need for the affected agency to seek supplemental appropriation or disrupt vital state services after a major property loss, adverse civil jury award, or significant workers' compensation claim.

By effectively managing the state's property and liability exposures through a comprehensive self-insurance program, Risk Management expends fewer public funds than would be paid to private insurance companies at the same time providing streamlined claims services utilizing professional adjusting firms located throughout Alaska.

Property insurance with all-risk (including earthquake and flood) coverage is provided on a replacement cost basis for all state-owned or leased property; buildings (including contents, museum fine arts, etc.), aircraft, watercraft (Alaska Marine Highway System ferries and other agency vessels), large highway bridges, and hydroelectric power dams.

Casualty coverages protect each state agency and their personnel from third-party civil (tort) liability claims alleged to have arisen from combined liability - general (premises/operations), automobile, professional (errors and omissions), medical malpractice, aviation (aircraft and airport), or marine (crew and passenger injuries).

Additional specialty coverages include blanket public employee faithful performance and custom bonding, accidental death and disability (including medical expenses) for volunteers, computer fraud and foreign liability, etc. These insurance programs continually evolve, responding to new activities and special projects undertaken by each state agency. There has been no significant reduction in insurance coverage from previous years and the state has not incurred a loss in excess of its insurance program.

In FY 03, the state completely self-insured all statutory workers' compensation claims, general (premises and operations) and professional liability, and automobile liability. We had Self-Insured Retention (SIR) levels of \$1 million for property and marine risks, and \$250,000 per incident for airport and aviation liability exposures. Limits of excess insurance vary by risk, reaching up to \$250 million per occurrence for marine and \$500 million for aviation.

Both domestic and international insurance companies and various Lloyd's of London underwriting syndicates participate in the State of Alaska's excess insurance program. Marketing is provided by independent brokers. The state obtains an annual independent actuarial assessment of the state insurance program as required by AS 37.05.287(b).

An unconstrained audit of the State of Alaska's overall property and casualty insurance program performed by an independent risk management consultant found the retention levels and excess insurance coverage purchased are appropriate.

Risk Management's budget is funded entirely through interagency receipts annually billed each agency through a "Cost of Risk" premium allocation system. The Risk Management information system generates the annual cost of risk allocation to each agency, reflecting their proportionate share of the state's overall cost of risk. Designed to achieve equitable distribution of the self-insurance program costs, it factors exposure values subject to loss and considers the past five years actual claims experience incurred by each department.

For most cost of risk allocations, 80 percent of the premium billing is based on the average of the past five years actual claims experience. This provides a direct fiscal incentive to each agency to reduce or control their claim costs.

The program compiles a property inventory schedule of all owned or leased buildings used or occupied by state agencies, listing age and type of building construction, occupancy, fire protection services and sprinkler systems, and projected

replacement cost value. Individual premiums are then determined and, in cases of multiple occupancy, allocated to each department on the basis of their square foot use.

The “Cost of Risk” premium is collected through two methods from individual state agency operating budgets. Reimbursable Services Agreements (RSAs) are used for all categories of insurance other than Workers’ Compensation and Combined Liability (general, auto, and professional), which are assessed on a rate per \$100 payroll applied monthly to each agency’s actual payroll until the allocated premium is paid.

The table below presents changes in policy claim liabilities for the fiscal years ending June 30, 2002 and June 30, 2003. The state records its related liability using discounted amounts provided by actuaries. The amount of unpaid claim liabilities for Risk Management are presented at their present value using a 5 percent discount interest rate for FY 02 and a 3 percent discount interest rate for FY 03.

Fiscal Year	Beginning Balance	Current Year Claims and Changes in Estimates	Claim Payments	Ending Balance
2002	\$ 62,836,971	\$ 37,419,096	\$ (21,652,389)	\$ 78,603,678
2003	\$ 78,603,678	\$ 32,297,924	\$ (32,277,129)	\$ 78,624,473

D. LITIGATION

The state is involved in a number of legal actions. The Department of Law estimates the probable maximum liability for the cases associated with the governmental fund types to be approximately \$5.3 million, with an additional possible liability of \$78.6 million. The probable loss amount has been reported as long-term debt obligations.

In October 2000, a complaint was filed in the Superior Court for the State of Alaska, Third Judicial District (Myers v. State of Alaska, Alaska Housing Finance Corporation and Northern Tobacco Securitization Corporation), seeking a declaratory judgment determining that the sale of the 2000 Tobacco Settlement Revenues (TSRs) by the state to AHFC or NTSC is a dedication of state funds for a special purpose, in violation of Section 7, Article IX of the Alaska Constitution. On October 30, 2000, Superior Court Judge Hensley ruled that such sale of the 2000 TSRs did not violate the Alaska Constitution. Plaintiff thereafter appealed to the Alaska Supreme Court.

On April 18, 2003 the Alaska Supreme Court rendered its decision. The court affirmed the superior court decision which was rendered on October 30, 2000. In affirming the superior court decision, the Alaska Supreme Court concluded that the securitization of the revenue stream of funds from the tobacco lawsuit settlement did not violate the anti-dedication provisions of the Alaska Constitution.

In March 2003, a major participating member (PM) was found liable of fraud in its marketing of “light” cigarettes, and plaintiffs in the class-action suit were awarded \$10.1 billion in damages in an Illinois court. Because there is no cap on bonding requirements for appeals in Illinois, the bond-posting requirement allowing the PM to seek an appeal of the trial court’s decision was set at \$12 billion. This requirement was later reduced to approximately \$6 billion on appeal to the Illinois Supreme Court. In its decision, the Illinois Supreme Court also agreed to hear the PM’s appeal of the original judgement.

The PM had previously stated that if the original \$12 billion bonding requirement was not reduced, it might not have been able to meet its obligations under the Master Settlement Agreement. Although the PM has prevailed in its attempt to reduce the bonding requirement, there is still the possibility of an adverse outcome on its appeal of the original judgment, with \$10.1 billion potentially due should such an appeal be unsuccessful. Arguments have not yet been heard by the Illinois Supreme Court.

Such litigation risk is not limited to a single PM. Other PMs face similar allegations in suits filed against them. Any adverse outcome in these suits could materially affect the ability of the PMs to meet their obligations under the Master Settlement Agreement.

E. FEDERAL GRANTS

The state has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, it is believed that any required reimbursements will not be material.

F. DISASTER RELIEF FUND

The state may be liable to reimburse communities for expenditures related to disasters in excess of the amount allocated by the state.

G. DISCRETELY PRESENTED COMPONENT UNITS

At June 30, 2003, AIDEA had extended commitments for loans of \$14,466,000 and loan guarantees of \$1,566,000.

NOTE 13 – SUBSEQUENT EVENTS

A. ALASKA MUNICIPAL BOND BANK AUTHORITY

The Alaska Municipal Bond Bank Authority issued four bond series subsequent to June 30, 2003.

1. Revenue Bonds, 2003 Series C in the face amount of \$1,015,000 with interest rates ranging from 2.00% to 3.00% over maturities of January 1, 2005 through January 1, 2009.
2. General Obligation Bonds, 2003 Series D in the face amount of \$15,065,000 with interest rates ranging from 4.00% to 6.00% over maturities of June 1, 2004 through June 1, 2023.
3. General Obligation Bonds, 2003 Series E in the face amount of \$32,020,000 with interest rates ranging from 2.00% to 5.25% over maturities of December 1, 2004 through December 1, 2028.
4. General Obligation Bonds, 2003 Series F in the face amount of \$3,320,000 with interest rates ranging from 2.00% to 3.5% over maturities of December 1, 2003 through December 1, 2011.

B. ALASKA STUDENT LOAN CORPORATION

On June 5, 2003, the Alaska Student Loan Corporation issued \$47,000,000 in education loan revenue bonds, of which \$15,885,000 was for the purpose of refunding the outstanding Series 1993A bonds at par. The refunding will occur on July 1, 2003.

C. INTERNATIONAL AIRPORTS FUND

Plans are in place to issue International Airport Revenue Bonds totaling \$76,600,000. Although this transaction has not yet been finalized, the issuance of the bonds is imminent. The borrowing is to be secured by gross revenues derived by the State of Alaska from the ownership, lease, use, and operation of the airports, and of all the facilities of them, and any other money that may be appropriated for the purpose, excepting only proceeds of any customer facility charge set by the commissioner of the Department of Transportation and Public Facilities.

D. ALASKA CLEAN WATER FUND

Plans are in place to issue Series A Revenue Bond Anticipation Notes totaling \$1,621,840 for fiscal year 2004. Although this transaction has not yet been finalized, the issuance of the bonds is imminent. The borrowing is to be secured by interest earnings of the Alaska Clean Water Fund.

E. ALASKA DRINKING WATER FUND

Plans are in place to issue Series B Revenue Bond Anticipation Notes totaling \$1,021,158 for fiscal year 2004. Although this transaction has not yet been finalized, the issuance of the bonds is imminent. The borrowing is to be secured by interest earnings of the Alaska Drinking Water Fund.

F. CERTIFICATES OF PARTICIPATION

On August 19, 2003, the State of Alaska issued Certificates of Participation totaling \$14,145,000 for the purpose of financing a seafood and food safety laboratory facility to be operated by the Department of Environmental Conservation. Repayment of this debt is subject to annual appropriation by the legislature.

NOTE 14 – SPECIAL ITEMS

As a result of an Attorney General's Opinion dated April 3, 2003, the interest earned since August 11, 1993 on the intertie grant monies being held by AIDEA are subject to appropriation and should be returned to the general fund. The special item identified on the statement is interest income earned on those funds as of June 30, 2003 that was returned or expected to be returned by AIDEA in the near future. Potentially future interest income earned on these funds will be remitted to the general fund.

The Alaska Science and Technology Foundation (ASTF) was established in statute as a public corporation within the Department of Community and Economic Development. To provide support to ASTF and its programs, two endowment funds were established, the Alaska Science and Technology Endowment (ASTE) and the International Trade and Business Endowment (ITBE). During the 23rd Alaska Legislative Session, the balance as of June 30, 2003 of the ASTE was appropriated to the general fund (Chapter 82, SLA 2003). The financial impact of this legislative action for the ASTE liquidation is reflected in the financial statements as a special item.

**Note to Required Supplementary Information – Budgetary Reporting
For the Fiscal Year Ended June 30, 2003**

The Budgetary Comparison Schedule – General Fund presents comparisons of the original and final adopted budget with actual data on a budgetary basis.

The legislature's legal authorization ("appropriations") to incur obligations is enacted on a basis inconsistent with GAAP. The reconciliation of the budgetary basis to GAAP is shown directly on the Budgetary Comparison Schedule – General Fund. Both the annual operating budget and the net continuing total budget are included.

The types of differences are as follows:

- Encumbrances are included for total authorized expenditures although for GAAP purposes they are excluded.
- There was certain financial activity related to reimbursable services agreements (RSA) and certain interfund transactions that were recorded both in the general fund and in other funds. For budgetary purposes, that activity was left in the general fund, but for GAAP purposes it was eliminated from the general fund.
- Basis differences arise when the budgetary basis of accounting differs from the basis of accounting applicable to fund type when reporting on operations in accordance with GAAP. This difference is comprised of the following in the general fund (in thousands):

Petroleum severance taxes and royalties	\$ 7,217
Medical Assistance Program	2,987
Working Reserve	(653)
Tobacco tax	(106)
Alcohol tax	(172)
Total general fund basis difference	<u>9,273</u>

- Perspective differences result from the structure of financial information for budgetary purposes. The Group Health and Life Benefits Fund (Group Health and Life, and Retiree Health) and the Alaska Public Building Fund are established by statute as accounts within the general fund, but must be reported as internal service funds to conform to GAAP. The federal receipts/disbursements for PL 103-382, Title VIII (previously PL 81-874) are budgeted in the general fund but are accounted for as an agency fund.

Group Health and Life	\$ (38,765)
Alaska Public Building Fund	(1,548)
Federal receipts for PL 103-382 (Impact Aid)	13
Total general fund perspective difference	<u>(40,300)</u>

General Fund

The general fund is the state's primary operating fund. All public monies and revenues coming into the state treasury not specifically authorized by statute to be placed in a special fund constitute the general fund. Unlike other funds held in the name of the State, the general fund has become a fundamental component of our fund structure without benefit of formal creation by the Constitution or the Alaska Statutes.

There are several accounts and funds that have been created by law which are considered a part of the general fund. These are treated as subfunds of the general fund and are accounted for as individual funds for accounting purposes but they are included in the general fund for annual financial reporting purposes. The following lists those funds and accounts.

- Alaska Children's Trust Fund (34050) – AS 37.14.200 – Administered by the Department of Health and Social Services, and the Alaska Children's Trust Board established in the Office of the Governor. The income from this endowment is used to provide a continuing source of revenue for grants to community-based programs for the prevention of child abuse and neglect.
- Alaska Debt Retirement Fund (11138) – AS 37.15.011 – The fund consists of all money appropriated to it. The fund was established to help meet the general fund debt obligations of the state and its political subdivisions, to fund lease-purchases, and to finance capital projects with money remaining after debt obligations are paid.
- Alaska Historical Commission Receipts Account (11111) – AS 41.35.380 – Administered by Department of Natural Resources. Consists of all monetary gifts, grants, bequests, royalties, and other income received by the Alaska Historical Commission and is used for commission projects.
- Alaska Marine Highway System Fund (12135) – AS 19.65.060 – Administered by Department of Transportation and Public Facilities, Alaska Marine Highway System. Gross revenues of the Alaska Marine Highway System are deposited into the fund. The fund also consists of legislative appropriations of amounts necessary to provide stable services to the public, after consideration of gross revenue.
- Alaska Marine Highway System Vessel Replacement Fund (11137) – AS 37.05.550 – Managed by Department of Revenue. The fund consists of money appropriated to it by the legislature. The legislature may appropriate money from the fund for refurbishment of existing state ferry vessels, acquisition of additional state ferry vessels, or replacement of retired or outmoded state ferry vessels.
- Alaska Technical and Vocational Education Program Fund (11166) – AS 23.15.830 – Administered by Department of Labor and Workforce Development. The account consists of amounts collected under AS 23.15.835. The legislature may appropriate the annual estimated balance in the account to the Alaska Workforce Investment Board to implement AS 23.15.820 – 23.15.850. The legislature may appropriate the lapsing balance of the account to the unemployment compensation fund established in AS 23.20.130.
- Alaska Transportation Infrastructure Bank (21653) – Section 350 of the National Highway System Designation Act of 1995 Federal Law – Managed by the Department of Transportation and Public Facilities. This fund was established as a pilot program with the U.S. Department of Transportation to increase infrastructure investment in the private sector. The fund has the ability to make loans and provide other forms of credit assistance to public and private entities to carry out highway construction and transit capital projects.
- Alaska Veterans' Memorial Endowment (36010) – AS 37.14.700(a) – Administered by the Department of Military and Veterans' Affairs to maintain and develop veteran memorials or military memorials. The fund consists of appropriations to the fund, donations to the fund, and income earned on investments of fund assets.
- Alcohol and Other Drug Abuse Treatment and Prevention Fund (11178) – AS 43.60.050 – Administered by the Department of Health and Social Services. The fund is used to establish and maintain programs for the prevention and treatment of alcoholism, drug abuse, and misuse of hazardous volatile materials and substances by inhalant abusers under AS 47.37.030.
- Art in Public Places Fund (11124) – AS 44.27.060 – Administered by Alaska State Council on the Arts. This fund consists of one percent of the construction cost of buildings exempt from AS 35.27. The money is used to commission or purchase art for public state-owned or leased buildings or facilities.
- Assistive Technology Loan Guarantee Fund (11154) – AS 23.15.125 – Administered by Department of Labor and Workforce Development, Division of Vocational Rehabilitation (DVR). The fund consists of money appropriated to it. DVR may solicit and accept available public and private money for distribution from the

fund. Money in the fund may be used to guarantee 90 percent of the principal amount of a loan or to subsidize the interest rate of a loan guaranteed by DVR for appropriate assistive technology.

- Budget Reserve Fund (33045) – AS 37.05.540(a) – Administered by the Department of Revenue. This fund consists of appropriations to the fund. Money received by the state that is subject to the appropriation limit under AS 37.05.540(b) and that exceeds that limit, may be appropriated to the budget reserve fund.
- Building Safety Account (11177) – AS 44.31.025 – Administered by the Department of Labor and Workforce Development. The collection of fees associated with building inspection and the issuance of certificates of fitness will be deposited in the Building Safety Account. The legislation may appropriate money from the account for necessary costs incurred by the Department of Labor and Workforce Development in the administration of AS 18.60.180 - 18.60.395, 18.60.800 - 18.60.620, and AS 18.62 relating to building safety and certificates of fitness.
- Commercial Passenger Vessel Environmental Compliance Fund (11174) – AS 46.03.482 – Administered by the Department of Environmental Conservation. Sources of income for this fund include: (1) money received by the department in payment of fees under AS 46.03.480; (2) money received as a result of a violation; (3) money appropriated to the fund by the legislature; (4) earnings on the fund. The legislature may make appropriations from this fund to the department to pay for the department's operational costs necessary to prepare reports that assess the information received by the department for the cruise ship seasons of 2000, 2001, 2002, and 2003 and for the department's operational costs necessary to carry out activities under AS 46.03.460 – 46.03.490 relating to commercial passenger vessels.
- Constitutional Budget Reserve Fund (33041) – Alaska Constitution, article IX, section 17; AS 37.13 – Administered by the Department of Revenue. All money received by the state as a result of the termination of administrative proceedings or litigation in a state or federal court involving mineral lease bonuses, rentals, royalties, royalty sale proceeds, federal mineral revenue sharing payments or bonuses, or involving taxes imposed on mineral income, production, or property are deposited in the fund, except for the share of those proceeds that are deposited into the Alaska Permanent Fund.
- Disaster Relief Fund (12125) – AS 26.23.300 – Administered by Office of the Governor and Department of Military and Veterans Affairs. This fund provides resources to alleviate the effects of disasters wherever and whenever they may occur in the state.
- Donated Commodity Fee Fund (11120) – USC 7 CFR, Part 250 – Administered by Department of Education and Early Development. This fund consists of monies from federal agencies and recipients of goods. It is intended to cover the cost of the distribution of federal surplus food to schools, childcare institutions, nonprofit camps for children, charitable institutions for minors, nutrition programs for the elderly, and assistance to needy persons.
- Educational Facilities Maintenance and Construction Fund (11142) – AS 37.05.560 – Money in the fund may be appropriated to finance the design, construction, and maintenance of public school facilities and for maintenance of the University of Alaska facilities.
- Election Fund (11179) – Federal H.R. 3295, “The Help American Vote Act”. Administered by the Office of the Lieutenant Governor, Division of Elections. Funds will be used for election administration improvements, for replacement of voting equipment, to improve accessibility for individuals with disabilities, and to provide alternative language accessibility.
- Employment Assistance and Training Program Account (11134) – AS 23.15.625 – Administered by Department of Labor and Workforce Development. The account consists of amounts collected under the provision of AS 23.15.630. The annual estimated balance in the account may be appropriated by the legislature to the department to implement AS 23.15.620 – 23.15.660. The legislature may appropriate the lapsing balance of the account to the unemployment compensation fund established in AS 23.20.130.
- Exxon Valdez Oil Spill Unincorporated Rural Community Grant Fund (11161) – AS 44.33.115 – Administered by Department of Community and Economic Development. The department may use the fund to make grants to unincorporated rural communities in the area affected by the Exxon Valdez oil spill for capital projects for purposes of restoring, replacing, or enhancing subsistence resources or services or other services damaged or lost as a result of the Exxon Valdez oil spill.
- FHWA - Airspace Leases Fund (11126) – Section 156 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 requires that the state shall charge fair market value for the sale, use, or lease rentals of right-of-way airspace and that the federal share of these net incomes be used by the state for highway projects. This fund accounts for those revenues. The revenues are available for appropriation by the legislature for highway projects.
- FICA Administration Fund (11110) – AS 39.30.050 – Administered by Department of Administration. The fund consists of the pro rata share of expenses incurred in the administration of 39.30.010 – 39.30.080 and collected from participating political subdivisions and from the state.

- Fisheries Disaster Fund (11180) – P.L. 108-7, SEC 2, Division N, Title V – Fisheries Disasters, Sec. 501(a). Administered by the Office of the Governor. \$35,000,000.00 shall be made available as a direct lump sum payment to the State of Alaska to make payments to persons or entities, which have experienced significant economic hardship. Funds in Alaska shall be used to provide personal assistance; assistance for small businesses including fishermen, fish processors, and related business serving the fishing industry; assistance for local borough governments adversely affected by reductions in fish landing fees and other fishing-related revenue; and product development and marketing.
- Fuel Emergency Fund (11125) – AS 26.23.400 – Administered by Office of the Governor. This fund is used when the governor determines that a shortage of fuel is sufficiently severe to justify state assistance to make grants to a city or borough, or to a village or unincorporated community to purchase emergency supplies of fuel.
- Fund for the Improvement of School Performance (11145) – AS 14.03.125 – Administered by Department of Education and Early Development. It is used to make grants to a district located in the state for the purpose of improving school performance.
- Major Maintenance Grant Fund (11144) – AS 14.11.007 – Administered by Department of Education and Early Development. The fund is used to make grants for the cost of school major maintenance.
- Memorial Education Revolving Loan Fund (21611) – AS 14.43.255 – Administered by the Department of Education and Early Development. The fund was created to pay tribute to the memory of Alaskans who, by example of their lives, or by their distinguished contribution and service to the state, their community, or their profession, exemplified the best that is the challenge of “The Great Land.” The funds shall be used to provide education loans to students selected under AS 14.43.250-325.
- Municipal Capital Project Matching Grant Fund (11146) – AS 37.06.010 – Administered by Department of Administration. The money in the fund is held by the department in custody for each municipality. Each fiscal year the department allocates individual grants for each municipality.
- Oil and Hazardous Substance Release Prevention Mitigation Account (11139) – AS 46.08.020(b) – Administered by Department of Environmental Conservation. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance; and fines, penalties, or damages recovered under AS 46.08.005–46.08.080. The legislature may appropriate the amount received in this account (during the preceding calendar year) to the prevention account in the Oil and Hazardous Substance Release Prevention and Response Fund.
- Oil and Hazardous Substance Release Response Mitigation Account (11153) – AS 46.08.025(b) – Administered by Department of Environmental Conservation. This account consists of money received from other state sources, from federal or other sources, or from a private donor; money recovered or otherwise received from parties responsible for the containment and cleanup of oil or a hazardous substance at a specific site for which the state expended money from the former oil and hazardous substance release response fund before October 2, 1994, or for which the state expended money from the response account. The legislature may appropriate the amount received in this account (during the preceding calendar year) to the response account in the Oil and Hazardous Substance Release Prevention and Response Fund.
- Oil and Hazardous Substance Release Prevention and Response Fund (11128) – AS 46.08.010 – Administered by Department of Environmental Conservation. This fund is composed of two accounts: (1) the prevention account and (2) the response account. The fund consists of appropriations by the legislature of money from private donors, money recovered from parties responsible for cleanup of oil or a hazardous substance, and fines, penalties, or damages recovered under chapter 46. This money is for the containment and cleanup of oil or a hazardous substance; monitoring, assessing, investigating, and evaluating the release or threatened release of oil or a hazardous substance; and recovery of the cost to the state of the containment and cleanup of oil or a hazardous substance.
- Permanent Fund Dividend Fund (33020) – AS 43.23.045 – Administered by the Department of Revenue. This fund consists of 50 percent of the income earned by the Alaska Permanent Fund during the fiscal year ending on June 30 that is paid out to eligible Alaska residents.
- Railbelt Energy Fund (11123) – AS 37.05.520 – Managed by Department of Revenue. The legislature may appropriate money from the fund for programs, projects, and other expenditures to assist in meeting Railbelt energy needs, including projects for retrofitting state-owned buildings and facilities for energy conservation.
- Randolph-Sheppard Small Business Fund (11118) – AS 23.15.130, 20 USC 107-107(f) – Administered by Department of Labor and Workforce Development. This fund consists of receipts from vending facilities on federal properties and is used to aid only blind licensees in operating vending machine facilities.
- Real Estate Surety Fund (11121) – AS 08.88.450 – Administered by Department of Community and Economic Development. This fund is composed of payments made by real estate licensees under AS 08.88.455 and filing fees under AS 08.88.460, income earned on investment of the money in the fund, and money deposited in the

fund under AS 08.88.450(c). Amounts in the fund may be appropriated for claims against the fund, for hearing and legal expenses directly related to fund operations and claims, and real estate educational purposes.

- School Construction Grant Fund (11143) – AS 14.11.005 – Administered by Department of Education and Early Development. The fund shall be used to make grants for the costs of school construction. Legislative appropriations for school construction shall be deposited in the fund and the proceeds from the sale of general obligation bonds for school construction may be deposited in the fund.
- School Trust Land Sales (11162) – Established per attorney general memo regarding Public School Trust Litigation. Used to separately account for the sales of 21 parcels of public school trust land the status of which is in litigation.
- State Insurance Catastrophe Reserve Account (11133) – AS 37.05.289 – Administered by Department of Administration. Assets of the account may be used to obtain insurance, to establish reserves for the self-insurance program, and to satisfy claims or judgements arising under the program.
- State Land Disposal Income Fund (11164) – AS 38.04.022(a) – Administered by Department of Natural Resources. The fund consists of revenue from the state land disposal program.
- State Land Reforestation Fund (12130) – AS 41.17.300 – Administered by the Department of Natural Resources. The money in the state land reforestation fund may be used only for the reforestation of state land, including site preparation, seed and seedling acquisition and cultivation, planting, and other reforestation measures, timber stand improvement, and the development of materials and techniques for the reforestation of state land.
- Storage Tank Assistance Fund (11136) – AS 46.03.410 – Administered by Department of Environmental Conservation. The fund consists of money appropriated to it by the legislature. The receipts of the fund may be used for certain costs as defined in AS 46.03.410(a) relating to underground petroleum storage tank systems and for grants and loans.
- Surplus Property Revolving Fund (11112) – AS 37.05.500(a)(2), AS 44.68.130 – Administered by Department of Administration. This fund is to account for revenues from the users or purchasers of excess federal property that the state has acquired and is used to pay the administrative expenses incurred in managing this property.
- Tobacco Use Education and Cessation Fund (11175) – AS 37.05.580 – Administered by the Department of Health and Social Services. This fund consists of 20 percent of the annual revenue derived from the settlement of State of Alaska v. Philip Morris, Incorporated, et al, No. 1JU-97-915 CI (Alaska Super. 1997). The purpose of this fund is to provide a source to finance the comprehensive smoking education, tobacco use prevention, and tobacco control program authorized by AS 44.29.020(a)(15).
- TAPS Rebate Fund (11163) – Federal Public Law 101-380, sec. 8102(a)(B)(I) – The federal government has rebated the pro rata share of the federal TAPS (Trans-Alaska Pipeline Liability Fund) to the State of Alaska for its contributions as an owner of oil. The funds are to be used for the remediation of above-ground storage tanks.
- Training and Building Fund (12121) – AS 23.20.130(d) – Administered by Department of Labor and Workforce Development. This fund consists of interest and penalties for failure to file timely reports and pay contributions to the Unemployment Compensation Fund. It may be used for the administration of the Employment Security Act when federal funds are not available; participation in programs of manpower training; and acquisition of land and buildings for the purpose of providing office space for the department.
- Unincorporated Community Capital Project Matching Grant Fund (11147) – AS 37.06.020 – Administered by Department of Community and Economic Development. This fund was created for unincorporated communities to acquire or improve an asset with an anticipated life exceeding one year and includes land acquisition, construction, repair or structural improvement of a facility, engineering and design for a facility, and acquisition or repair of equipment.
- Vocational Rehabilitation Small Business Enterprise Revolving Fund (11116) – AS 23.15.130 – Administered by Department of Labor and Workforce Development, Division of Vocational Rehabilitation. This fund consists of receipts from the net proceeds of vending facilities on public property. The annual estimated receipts of the fund may be used by the legislature to make appropriations to the department to aid licensees in operating vending machine facilities.
- Workers' Safety and Compensation Administration Account (11173) – AS 23.05.067 – Administered by Department of Labor and Workforce Development. This fund is used to account for the annual service fees collected from employers for the administrative expenses of the state for workers' safety programs under AS 18.60 and the workers' compensation program under AS 23.30.

Nonmajor Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes. The following are the state's special revenue funds.

- Alyeska Settlement Trust Fund (12138) – Consent Decree between the United States, the State of Alaska, and Alyeska Pipeline Service Company – Administered by the Department of Revenue. The fund was created for the purpose of receiving, holding, and disbursing settlement proceeds from Alyeska under the Consent Decree. The funds are to be used to clean up oil spills and for other projects specified in the Consent Decree.
- Clean Air Protection Fund (12133) – AS 46.14.260 and Federal Clean Air Act – Administered by Department of Environmental Conservation. The fund is established to collect and account for permit fees under the federal clean air act. Monies collected may only be used to cover reasonable costs required to support the permit program.
- Exxon Valdez Oil Spill Restoration Fund (12136) – U.S. District Court judgement in the criminal case U.S. v. Exxon Shipping Company and Exxon Corporation resulted in \$50 million restitution being received by the state to be used exclusively for restoration projects related to the Exxon Valdez oil spill. Administered by the Department of Revenue.
- Exxon Valdez Settlement Trust Fund (33070) – AS 37.14.400 – Memorandum of Agreement and Consent Decree between the United States (U.S.) and the State of Alaska to maximize the funds available for restoration of natural resources and to resolve the governments' claims against one another relating to the Exxon Valdez Oil Spill, which occurred on the night of March 23-24, 1989, in Prince William Sound, Alaska. The funds are administered by the trustee council which consists of the Secretaries of the U.S. Departments of the Interior and Agriculture and the Administrator of the National Oceanic and Atmospheric Administration (the federal trustees) and the Commissioners of the Departments of Environmental Conservation and Fish & Game and the Attorney General of the State of Alaska (State trustees). The trustee council determines which projects shall be financed by monies from the trust. The Exxon Valdez Settlement Trust Fund established in the state accounting system accounts for those monies transferred to the state for projects approved by the trustee council. These projects are for the purpose of restoring, replacing, enhancing, rehabilitating, or acquiring the equivalent of natural resources injured, lost, or destroyed as a result of the oil spill.
- Fish and Game Fund (12122) – AS 16.05.100 – Administered by Department of Fish and Game. Statutory revenue in this fund can only be used for the purpose of protection, propagation, investigation, and restoration of sport fish and game resources and the expenses of administering the sport fish and wildlife divisions of Department of Fish and Game. These monies are received from the sale of state sport fishing and hunting licenses and special permits; sale of furs, skins, and specimens taken by predator hunters; money received in settlement of a claim or loss caused by damage to fish and game purposes; and donations. In addition to the statutory revenues, federal revenues, crewmember license fees, and other sources are appropriated to the fund for purposes related to fish and wildlife.
- Fishermen's Fund (11119) – AS 23.35.060 – Administered by Department of Labor and Workforce Development. This fund is composed of 39 percent of the money derived by the state from all commercial fishermen's licenses and money appropriated by the legislature to pay for emergency treatment, transportation, medical care, and hospitalization of commercial fishermen.
- National Petroleum Reserve Fund (12131) – AS 37.05.530 – Administered by Department of Community and Economic Development. This fund consists of all money disbursed to the state by the federal government under 42 U.S.C. 6508 since December 12, 1980, less the amount deposited in the general fund and expended by the State by general fund appropriations before June 9, 1984. The monies are spent by municipalities to alleviate the impact from oil and gas development within the National Petroleum Reserve.
- Northern Tobacco Securitization Corporation (NTSC) Fund (21664) – AS 18.56.086 – Subsidiary of Alaska Housing Finance Corporation (AHFC). The purpose of this fund is to purchase Tobacco Settlement Revenues

from the State in order to provide financing of construction of public school facilities, facilities for the University of Alaska, public housing facilities of AHFC and facilities for ports and harbors. NTSC is authorized to issue bonds necessary to provide sufficient funds for carrying out its purpose.

- Reclamation Bonding Pool Fund (12132) – AS 27.19.040 – Administered by Department of Natural Resources. A miner is required to have an approved reclamation plan and to file a performance bond before mining operations may commence. This fund is established as a statewide bonding pool as an alternative to individual performance bonds.
- School Fund (12123) – AS 43.50.140 – Administered by Department of Revenue and Department of Education and Early Development. This fund receives the revenue from the payment of cigarette taxes, fees, and penalties. It can only be used to rehabilitate, construct, and repair the state's school facilities, and for costs of insurance on buildings comprising school facilities.
- Second Injury Fund (11117) – AS 23.30.040 – Administered by Department of Labor and Workforce Development. The second injury fund consists of all amounts collected under AS 23.30.040(b) and (c), and as civil penalties under AS 23.30.155(c). Money in the fund may only be paid for the benefit of those persons entitled to payment of benefits from the Second Injury Fund under AS 23.30.

Nonmajor Enterprise Funds

Enterprise funds account for business-like state activities that provide goods and/or services to the public and are financed primarily through user charges. The following are the state's enterprise funds.

COMMERCIAL ASSISTANCE ENTERPRISE FUNDS

- Alaska World War II Veterans' Revolving Fund (21605) – AS 26.15.090 – Administered by Department of Community and Economic Development (DCED). The fund was created for the purpose of making home, education, or personal loans to eligible veterans. However, no loans are currently being made from the fund.
- Child Care Facility Revolving Loan Fund (21612) – AS 44.33.240 – Administered by DCED. The purpose of this fund is to make loans for the construction, renovation, and equipping of child care facilities in order to enable such facilities to comply with the requirements for certification by the Department of Education and Early Development or for licensing by the Department of Health and Social Services.
- Commercial Fishing Revolving Loan Fund (21608) – AS 16.10.340 – Administered by DCED. The purpose of the fund is to promote the development and continued maintenance of commercial fishing gear and vessels by means of long-term, low interest loans.
- Fisheries Enhancement Revolving Loan Fund (21615) – AS 16.10.505 – Administered by DCED. The purpose of this fund is to promote the enhancement of the state's fisheries by means of long-term, low interest loans for salmon hatchery planning, construction, and operation.
- Historical District Revolving Loan Fund (21614) – AS 45.98.010 – Administered by DCED. The purpose of this fund is to make loans for the restoration or rehabilitation of structures within the boundaries of a historical district. These structures are identified as important to State or national history and are suitable for superficial modification to conform to the period or motif of the surrounding area.
- Mining Revolving Loan Fund (21625) – AS 27.09.010 – Administered by DCED. This fund consists of money appropriated by the legislature for loans to underwrite advanced mineral exploration, development, or mining.
- Small Business Revolving Loan Fund (21607) – AS 45.95.060 – Administered by DCED. AS 45.95 authorizes the Commissioner of DCED to make small business loans. Loans may be used to acquire, finance, or refinance or equip businesses, which includes mining, fishing, and farming equipment.

ENERGY ASSISTANCE ENTERPRISE FUNDS

- Alternative Energy Revolving Loan Fund (21619) – AS 45.88.010 – Administered by DCED. This fund consists of monies appropriated by the legislature for the purpose of developing energy production from sources other than fossil or nuclear fuel.
- Residential Energy Conservation Fund (21623) – AS 45.89.010 – Administered by DCED. This fund consists of money appropriated by the legislature for refunds, grants, and loans to purchase, construct, or install energy conservation improvements.

OTHER AGENCIES ENTERPRISE FUNDS

- Agricultural Revolving Loan Fund (21606) – AS 03.10.040 – Administered by the Department of Natural Resources. The Alaska Agricultural Loan Act is a declaration of policy to promote the development of agriculture as an industry throughout the state by means of long-term low interest loans. The Agricultural Revolving Loan Fund was created to fulfill this purpose.
- Alaska Clean Water Administrative Fund (11167) – AS 46.03.034 – Administered by Department of Environmental Conservation. The fund is composed of two accounts, the Alaska clean water administrative operating account; and the Alaska clean water administrative income account. The administrative operating account may be used for operational and administrative costs to manage the Alaska Clean Water Fund (AS

46.03.032). Money received in payment of fees in connection with making and servicing loans from the Alaska Clean Water Fund and earnings on the administrative fund shall be deposited in the administrative income account.

- Alaska Clean Water Fund (21658) – AS 46.03.032 – Administered by Department of Environmental Conservation. This fund consists of money appropriated by the legislature to meet federal matching requirements for public water and sewage treatment facilities.
- Alaska Drinking Water Administrative Fund (11170) – AS 46.03.038 – Administered by Department of Environmental Conservation. The fund is composed of two accounts, the Alaska drinking water administrative operating account; and the Alaska drinking water administrative income account. The administrative operating account may be used for operational and administrative costs to manage the Alaska Drinking Water Fund (AS 46.03.036). Money received in payment of fees in connection with making and servicing loans from the Alaska Drinking Water Fund and earnings on the administrative fund shall be deposited in the administrative income account.
- Alaska Drinking Water Fund (21659) – AS 46.03.036 – Administered by Department of Environmental Conservation. The fund consists of federal capitalization grant. The capitalization grant is divided between two purposes: part of each capitalization grant is to be deposited into the DWF for providing loans for drinking water infrastructure projects; the other part is to be used for set-side or nonproject activities. Set aside funds must be maintained in a separate account from the project fund.
- Alcoholism and Drug Abuse Revolving Loan Fund (21642) – AS 44.29.210 – Administered by Department of Health and Social Services. This fund is required under 42 U.S.C. 300x-4a to qualify the state to receive block grant money from the United States Department of Health and Human Services under 42 U.S.C. 300x – 2. Money in the fund may be used to make loans to private nonprofit organizations for the cost of establishing programs to help pay the living expenses of individuals recovering from alcohol or drug abuse who may reside in groups.
- Unemployment Compensation Fund (33030) – AS 23.20.130 – Administered by the Department of Labor and Workforce Development. This federal trust fund is established and maintained in the U.S. Treasury. It is used to account for unemployment contributions from employers and unemployment benefits paid to eligible claimants.

Internal Service Funds

Internal service funds account for the operations of state agencies which render services to other state agencies, institutions, or other governmental units on a cost-reimbursement basis. The following are the state's internal service funds.

- Alaska Public Building Fund (11165) – AS 37.05.570 – Administered by the Department of Administration. Effective July 1, 2000, the Department of Administration began to manage the maintenance and operations of eight (8) state owned buildings. The goals are to manage these buildings, in good order and a functional state, while providing cost effective and efficient space for state agencies and private tenants (until private tenant leases expire and space is converted to state agency use), to retain maximum value of these state assets, and to maximize revenue from non-general fund sources.
- Correctional Industries Fund (22654) – AS 33.32.020 – Administered by the Department of Corrections. The fund accounts for correctional industries program activities which include a commercial laundry service and a furniture manufacturing enterprise. The correctional industries program provides employment for inmates at several of the state's correctional institutions. All expenses of the correctional industries program, except salaries and benefits of state employees, are financed from the correctional industries program and budgeted in accordance with the executive budget. Salary and benefits of state employees of the program are financed by other funding sources.
- Group Health and Life Benefits Fund (11135) – AS 39.30.095 – Administered by the Department of Administration. Effective July 1, 1997, the state began a self-insurance program to provide health care coverage for state employees covered by the retirement programs administered by the state. This fund consists of accumulated assets held for the purpose of paying health care claims for employees and accounts for transactions pertaining to the self-insurance program.
- Highways Equipment Working Capital Fund (22600) – AS 44.68.210 – Administered by the Department of Transportation and Public Facilities. This fund is used for necessary expenses resulting from the centralization of equipment maintenance and for the operation of supply depots.
- Information Services Fund (22500) – AS 44.21.045 – During the 1990 Legislative Session, the Legislature established the Information Services Fund (ISF) in the Department of Administration and classified it as an internal service fund. The ISF is used to account for the operation and financing of computing and telecommunication services for the State of Alaska. Included in these services is operation of the state's mainframe computer; the statewide consolidated data network; the telephone system in Juneau, Anchorage, and Fairbanks; and the microwave communications infrastructure.

Fiduciary Funds

Trust and agency funds are fiduciary in nature and are maintained to account for assets held by the state acting in the capacity as a trustee or agent. The following are the state's trust and agency funds.

PENSION AND OTHER EMPLOYEE BENEFIT TRUST FUNDS

- Alaska National Guard and Alaska Naval Militia Retirement System (35030) – AS 26.05.222 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Alaska National Guard and Alaska Naval Militia Retirement System.
- Deferred Compensation (32014) – AS 39.45.010 – Administered by the Department of Administration. This fund consists of compensation deferred by employees under the state's deferred compensation plan allowed under Section 457 of the Internal Revenue Code.
- Judicial Retirement System (35025) – AS 22.25.048 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Judicial Retirement System.
- Public Employees' Retirement System (35010) – AS 39.35.020 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Public Employees' Retirement System.
- Retiree Health (11159) – AS 26.05.020, AS 22.25.048, AS 39.35.020, AS 14.25.010 – Administered by the Department of Administration. The state began a self-insurance program to provide health care coverage for retirees covered by the retirement programs administered by the state. This fund consists of accumulated assets held for the purpose of paying health care claims for retirees and accounts for transactions pertaining to the self-insurance program.
- Supplemental Benefits System (35041) – AS 39.30.150 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Supplemental Benefits System.
- Teachers' Retirement System (35020) – AS 14.25.010 – Administered by the Department of Administration. This fund consists of accumulated assets held for the purpose of paying benefits provided by the Teachers' Retirement System.

AGENCY FUNDS

- Deposits, Suspense, and Miscellaneous (32005) – Administered by the Department of Administration. This fund is used to account for refundable deposits and other receipts held in trust until the state has the right to transfer them to operating funds, or until there is a proper authorization to disburse them directly to others.
- EVOS Investment Trust Fund (32025) – Public Law 106-113 – Administered by the Exxon Valdez Oil Spill (EVOS) Trustee Council. Consists of assets of a joint federal/state trust fund established to receive, hold, disburse and manage all natural resource damage recoveries obtained by the United States government and the State of Alaska under the Clean Water Act, arising out of the Exxon Valdez oil spill.
- Impact Aid PL 103-382 (32017) – Administered by the Department of Education and Early Development. These monies are received from the federal government and are distributed to the local school districts. The funds provide financial assistance to local school districts where enrollment or availability of revenue is adversely affected by federal activities.
- Public Advocacy Trust Fund (32012) – AS 44.21.410 – Administered by the Department of Administration. The Public Advocacy Trust Fund holds in trust funds for individuals under the guardianship of the Office of Public Advocacy.
- Wage and Hour (32011) – Administered by the Department of Labor and Workforce Development. This fund was established to account for receipts and disbursements for wage and hour violations.
